2,500 U.S. Army Combat Engineers Land Today In S.V.N. To Build Facilities

By EDWIN Q. WHITE

SAIGON, South Viet Nam (AP) — About 2,500 U.S. Army combat engineers landed today at Cam Ranh Bay, 190 miles northeast of Saigon, to build an airfield, port and supply center there, a U.S. military spokesman announced.

The spokesman hinted that more engineers were on the way. "Don't hold me to the 2,500 figure," he said.

The spokesman said the project, being undertaken jointly by the U.S. and South Vietnamese governments, would include a bridge to link the harbor area to a highway and railroad.

54,000 IN SVN

The new base is expected to play a key role in the U.S.- Vietnamese war effort in the central and northern parts of South Viet Nam, the spokesman said.

The engineers bring the U.S. military force in South Viet Nam to nearly 54,000 men.

In the air war against North Viet Nam, U.S. planes attacked the big port of Vinh for the fifth straight day and the pilots claimed light to moderate damage to an army barracks area.

51 YANKS KILLED

A U.S. military spokesman announced that government forces suffered their heaviest casualties of the war — 1,875 South Vietnamese and 51 Americans in the week that ended last Saturday. Viet Cong losses for the week were 1,305, the spokesman said, but these included no wounded.

The spokesman said 530 South Vietnamese troops were killed, 710 wounded and 635 either missing or captured. Ten Americans were killed, six were missing and 35 wounded for the same period.

The Viet Cong had 1,221 killed and 84 captured, the spokesman said.

SOCIETY HEARS COBEAN STORY OF LEG SURGERY

Was General Trimble's leg amputated at the "Dunwoody" farm during the Battle of Gettysburg?

That question was raised Tuesday night in the meeting of the Adams County Historical Society at the historic farm now owned by Mr. and Mrs. A. W. Butterfield, located just north of here along the Biglerville Rd.

Butterfield read to the society recollections of the late Mrs. H. M. McIlhenny concerning the experiences of her grandfather, Samuel Cobean, who owned and occupied the farm during the battle. Claim was made in that account that General Trimble's leg was amputated in the parlor of the 160-year-old house.

Dr. Frederick Tilberg, National Park historian, held that while some officer's leg may, and probably was, severed from his body during the use of the house by Confederates in 1863 it was not General Trimble. The general, Dr. Tilberg said, was not engaged in the battle here until July 3, and was injured on that date. He was removed to the Lutheran Theolgoical Seminary building after being wounded, according to the records, and his leg was amputated there.

SHELLS HIT HOUSE

According to the Cobean-McIlhenny recollections, Samuel Cobean, who bought the farm in 1854, was a widower at the time of the battle. When the Confederates took over the farm, and eventually the house, on July 1, 1863, Cobean watched the proceedings, including shelling by Union cannon until shells smashed into the house—at which point he accepted the advice of the Confederates to go to the cellar until the fight-

ZION WOMEN HONOR "YOUNG"

Senior members of Zion Lutheran Church, Fairfield, will be honored Friday evening at the ninth annual "young-at-heart" party sponsored by the Lutheran Churchwomen of the congregation. Dinner will be served in the parish hall at 5:30 o'clock by the six circles of the LCW under the direction of Mrs. Nellie Musselman, Christian service chairman.

Mrs. Ira M. Henderson, a member of the board of directors of the Parker Presbyterian Home, Newville, for the past 40 years, will introduce the 16 senior residents of the home who comprise the "Presbytaires," a rhythm band. The group's slogan is "In Their 30's—But Play Like 60." The program will include an hour of musical entertainment.

Invitations to the dinner were mailed to approximately 150 senior members of the congregation. Dinner reservations no longer are available but the after-dinner program is open to the public.

Mrs. Robert Reindollar will be in charge of devotions.

COMMITTEE TO MEET

The Advisory Committee of the Adams County Poultry Association will meet this evening at 8 o'clock in the business office of the Central Chemical Corporation here. County Agent Thomas E. Piper said plans will be developed at the meeting for a barbecue July 8 for the Iowa 4-H delegation which will be spending that week here.

COURT ACTION SETTLED FOR $8,600 TODAY

The Adams County court approved settlement for $8,600 of an action in trespass brought by Madeline M. Mays, Biglerville R. 2, administratrix of the estate of Wilbur Mays, against John W. Bowling, Camp Hill.

Mr. Mays, husband of the administratrix, was fatally injured January 12 when, while walking, was struck by Bowling's car at the intersection of Second St. and Taylor Bridge in Wormleysburg.

The court order approving the settlement listed $830 to be paid Mrs. Mays to reimburse her for the cost of the funeral and burial lot; $1,000 to Mr. Mays' estate, $5,864 will be divided among Mrs. Mays and the five children. She will receive $1,954.70 and each of the children, $651.55. The order provides payment of $900 to Attorney Oscar Spicer for his services as Mrs. Mays' attorney.

DIVORCE DECREES

Decrees in divorce were granted to James L. Riggeal, Orrtanna R. 2, from Mary E. Crone Riggeal, Baltimore St., and to Donna Joy (Smith) Sparkman, York Springs R. 2, from James Warren Sparkman, Taneytown.

Floyd M. Clapper, 37, Carlisle, $3,884.50 in arrears on a support order, and who had been jailed several times on arrearages, was found guilty of contempt of court and sentenced to 30 days in the Allegheny County Workhouse.

SUPPORT ORDERS

Francis L. Herring, Gettysburg, was ordered to pay $30 per week for the support of his wife, Phyllis Lou Herring, and three children.

Melvin F. Laughman, New Oxford R. 2, was directed to pay $35 per week for the support of his wife, Erma, and one child.

Robert L. Dell, Hanover, was directed to pay $25 per week for the support of his wife, Darlene, and two children.

The support case against Terry Lee Martin, Fairfield R. 1, was dismissed and the costs placed on the prosecutrix, Sharon Louise

TIRE ON TRUCK BLOWS OUT AND CAUSES CRASH

Damage totaled $1,300 at 4 o'clock this morning when the right front tire of a truck operated by Clyde E. Klinefelter, R. 5, blew out as he was driving south four miles north of Hanover on the Hanover-Carlisle pike.

Police said the truck went off the road smashed three sections of guard rail, and came to rest against the fence at Bethlehem Quarries. Damage was estimated at $1,200 to the truck and $100 to the guard rail sections.

Two 15-year-old boys were injured Tuesday afternoon at 2:05 o'clock when a car stolen from the parking lot at the Hamburger Palace in Midway ran into a utility pole a half mile north of McSherrystown on the Edgegrove Rd.

$600 DAMAGE

Police estimated damage to the auto, owned by Roscoe R. Stewart, Bair Ave. Ext., Hanover, at $500. The right ride was demolished when the car skidded and struck the pole. Damage to the pole, which was broken off, was estimated at $100. Police who released no names because all involved were juveniles said a 15-year-old boy was driving the stolen vehicle.

Damage was estimated at $200 to the imported car of Glenn E. Wrights, W. King St., East Berlin, at 9 o'clock Tuesday night when, according to state police, a truck operated by Charles E. Myers, 38, Thomasville R. 2, attempting to park on W. King St., East Berlin, backed into the Wrights parked auto.

Laborer Is Held In Priest Shooting

A 20-year-old laborer was ordered held without bail for the grand jury Tuesday in Central Municipal Court, Baltimore, on a homicide charge in the May 16 death of a Virginia priest.

Judge Basil A. Thomas ordered Carl Graef Jr., Baltimore, held after his attorney, Leonard J. Kerpelman, waived preliminary hearing Tuesday afternoon.

Graef was charged in the shotgun death of the Rev. Harvey P. Harrigan, 39, of Leesburg, Va., who was shot once in the back with a 12-gauge shotgun the night of May 16 at Graef's home. Father Harrigan died soon after at South Baltimore General Hospital.

Rev. Fr. Harrigan was a graduate of Mt. St. Mary's Seminary, Emmitsburg.

Asks To Slash Electric Rates

Metropolitan Edison Company today sought authorization from the Public Utilities Commision to file for the largest rate reduction in the history of the company. In its petition to the PUC, Met-Ed seeks to reduce rates by $1,100,000 annually effective July 1.

In announcing the petition to the PUC, William R. Snyder, Met-Ed president, said:

"If approved, this will be the fourth rate reduction in two years and will mean that Met-Ed customers will have received reductions in rates amounting to $2,357,000 since July 1963."

More than 97 percent of all Met-Ed's residential customers will be affected by the reduction in rates if the new schedule is approved. The proposal also would provide for rate reductions to other types of Met-Ed customers.

ACQUIRE 750 ACRES OF LAND FOR $497,500

The approximately 750 acres of land purchased by Lake Heritage, Inc., to establish a private lake and recreation area along Swift Run between the Bonneauville and Littlestown Rds. cost the corporation $497,500 according to deeds recorded at the courthouse here. $220,000 Voted Seminary And $200,000 To College By C. Pennsylvania Synod

The Central Pennsylvania Synod of the Lutheran Church in America today adopted a budget of $3,992,588 for 1966. This figure, some $84,000 more than in 1965 budget, was voted by delegates to the synod's 4th annual convention in Christ Chapel, Gettysburg College.

Included in the new budget are grants of $220,000 to the local seminary $200,000 to Gettysburg College, and $200,000 to Susquehanna University at Selinsgrove. Both Gettysburg and Susquehanna are affiliated with the Lutheran Church in America through the synod.

An amount of $2,275,171 is earmarked to be given the parent Lutheran Church in America for its work throughout North America and the world.

The work of the synod itself, its boards and committees will be supported with an item of $796,198 and the Pennsylvania Council of Churches is scheduled to receive $13,621. Set aside for "emergency and advance" is $287,598.

ELECT PASTORS

Election of pastors and laymen to serve on boards and agencies of the Central Pennsylvania Synod, Lutheran Church in America, were completed this morning.

In all, 80 persons were declared elected, including 68 delegates to represent the synod at the 1966 convention of the Lutheran Church in America at Kansas City, Mo.

Three pastors and three laymen were elected to three-year terms on the synod's executive board: Rev. Howard J. McCarney, pastor of St. Matthew's Church, Hanover; Rev. Robert G. Sander, pastor of St. John's Church, Lewistown; Rev. Dale S. Bringman, pastor of Grace Church, State College; C. Harry Forse of Montoursville; Claude R. Greiner of Hummelstown, and George W. Hoffman of Casebeer, Somerset County.

Rev. Herman G. Stuempfle Jr., professor of the local seminary, was elected to serve a six-year term on the board of trustees of Gettysburg College. Rev. Richard C. Klick, pastor of St. Paul's Church, York, was elected to a partial term expiring in 1966 on the board of directors of Susquehanna University.

Elected three-year terms on the board of directors of the local seminary were Rev. John W. Vannorsdall, chaplain of Gettysbugr College; Rev. Gordon E. Folkmen, pastor of St. Matthew's Church York; Jacob L. Rhodes of Annville, and David C. Houck of Wenksville.

Before adjourning at one o'clock this afternoon delegates postponed action until 1966 on the proposal to move synod headquarters from 2600 N. Third St., to the United Church Center in East Harisburg.

COUNTY ASKED TO PLAN LOW RENT HOUSING

A committee from the Senior Citizens Club Tuesday urged the county commissioners to establish an authority to construct low rental housing for the elderly.

Mrs. Helen Tunison, county extension home economist, who has been serving as an advisor for the Senior Citizens Club of the county, and Mrs. R. K. Stallsmith, Mrs. Luther Sachs and Mrs. C. C. Culp comprised a committee from the club and distributed to the commissioners literature concerning the Public Housing Administration programs set up by the 1937 Federal Housing Act and discussed various public projects in other areas which they had seen.

Commissioners Atlee Rebert, Harrison Fair and G. Edwin Motter showed much interest in the proposition but did not immediately commit the county to any action.

CAN BORROW FUNDS

Under the Federal Public Housing Administration local governments, such as counties, can set up authorities which may borrow up to 90 percent of the funds they need for construction of housing units to be rented at low cost. Ten percent of the funds must come locally either by the au-

REV. LENA PARR IS ASSIGNED TO WILLIAMSPORT

Rev. Lena Parr, Breckenridge St., pastor of St. Paul's AME Zion Church for the past seven years, has been assigned to serve as pastor of Salem AME Zion Church, Williamsport, by Rt. Rev. Raymond Luther Jones, prelate of the second Episcopal area of the Philadelphia and Baltimore Conference.

Rev. Parr will succeed Rev. Robert L. Addison. The transfer became effective on May 16 at the 138th session of the Philadelphia and Baltimore area held in Philadelphia.

ACTIVE IN CHURCH

Mrs. Parr is statistical secretary of the conference and serves on various committees including worship, rules, necrology and is a reporter for the Philadelphia district. She came to Gettysburg in September, 1958, and has been active in the community and ministerium. She is a former secretary of the ministerium and has been treasurer since 1959. She is a former board member of the YWCA and has served as second vice-president of the Adams County Council of Churches.

Rev. Parr has served as assistant pastor of John Wesley, Chambersburg; pastor of Mt. Tabor, Mt. Holly Springs for 17 years, and pastor of Mt. Pisgah, Shippensburg, for nine years.

Rev. Parr will be serving a church in Williamsport which has a membership of 200. She will reside at her Gettysburg home and commute until the parsonage has been renovated in Williamsport.

SCHOOL BUS IS PURCHASED; NAME TEACHER

Henry E. Waltman, secretary of the Littlestown school board for 22 years, Tuesday evening recorded the minutes of his last board meeting and recalled that "the first budget I helped to prepare in 1943 was for $39,000." He submitted his resignation several months ago, effective June 1. Mrs. Mildred H. Kline was appointed to succeed him.

At the recommendation of the property and supplies committee the board by a vote of 14-4, awarded a contract for the purchase of one 66-passenger school bus to Village Chevrolet, Littlestown, at $5,995, which was $139 higher than the low bid of Valley Motors, Hanover. The purchase was advised "because of the advantage of local service."

ELECT TEACHER

The board also elected Mrs. Marvin Breighner, Littlestown, to teach the Sixth grade at a salary of $5.400 on recommendation of the teacher committee, and awarded contracts for general school supplies to Roberts & Meck for $3,350 and the shop supplies contract to Patterson Bros. at $928.31. Each firm was low bidder for the contract. The property committee also recommended advertising for bids for paving certain school areas, providing storage space in the library and placing incinerators at the Rolling Acres School.

The board accepted the resignation of Mrs. Alice M. Johnson, English teacher, who asked the board to release her immediately because of "unfortunate personal circumstances."

President Wilbur E. Mackley reappointed Dean W. Bankert treasurer for the year; Kenneth Ogg, Chester Byers and Paul Sny-

McDivitt And White Are Ready For Big Round Of Rousing Welcomes Ashore

By VERN HAUGLAND

ABOARD THE WASP (AP) — James A. McDivitt and Edward H. White II, now close enough to home to see their own historic space-walk film on shipboard television, began their final festive day at sea today and got set for a round of welcomes awaiting them ashore.

Almost all of the intensive medical testing behind them, the astronauts' schedule today called for "technical debriefing" — talking into tape recorders at length about their four-day mission and being questioned in detail by space experts.

FAVORED MOMENTS

The Gemini 4 twins said their most memorable moments of the flight were, for White, his 20-minute stroll in space, and, for McDivitt, the capsule's reentry through the earth's atmosphere.

They were among the millions who thrilled at the sight of vivid movies of the space stroll. The films were released Tuesday in Houston, Tex., and the astronauts saw a televised version late Tuesday night.

Space doctors also continued to be mildly amazed at the astronauts' fine physical condition after their arduous journey.

NO ILL EFFECTS

Medical tests showed little ill effects on the astronauts' hearts from four days of weightlessness, though there was one minor health problem Tuesday: McDivitt had a nosebleed.

Doctors said the nosebleed probably resulted from the drying effect of breathing pure oxygen for nearly 98 hours. They said future astronauts might take along something to lubricate the inner nose.

The astronauts' schedule on their scheduled return to Houston Thursday already was crowded with parades and other honors from their admiring pub-

ROSE WINNER TELLS WOMEN TO ENTER SHOW

Earl E. Carey, Biglerville rose grower, still glowing from honors he received Saturday in the Harrisburg rose show, Monday told members of the Biglerville Garden Club "you must be a good loser" to enter the competition in flower shows.

He said, "Be happy for the fellow who wins," and urged garden club members who attended a "rose brunch" at the home of Mrs. Arnold E. Orner, Biglerville, to "enter the South Mountain Fair competition this fall. It's a good place to start" in exhibitions. Carey won the William H. Mavity silver trophy at the Harrisburg show for his entry of four white roses.

Stressing the importance of purchasing "exhibition rose" stock for home gardens, Carey emphasized rose culture and conditioning of specimens for show purposes. He recommended that roses should be placed in warm water for a period after cutting, then refrigerated in a plastic bag to prevent further maturity of the rose until it is exhibied. He explained the features by which a rose is judged and commented "The perfect rose has not yet been grown."

REPORT ON ROSES

Featuring a program on "Say It With Roses," Mrs. Clyde Orner read the "Therapy of Roses" and Mrs. Clayton Jester reported on the 200 wild roses and 5,000 cultivated varieties known to gardeners.

Prior to the meeting at the Orner home club members toured the civic improvement projects at the cemetery, the gardens of Paul Wagner, Dean Carey, Mrs. O. A. Nary, the high school, Elmer Yoder, Mrs. L. V. Stock, Charles Baker, Earl Carey and the Orner gardens. Upon arrival at the Orners home the group was served iced punch. On display were the trophies Charles Baker and Earl Carey won at the Harrisburg rose show. A short business meeting was conducted by Mrs. O. A. Nary in the absence of the president, Mrs. Ruth Donharl. Hostesses were Mrs. Earl Carey, Mrs. Orner, Mrs. Jane Martin, Mrs. Harold Bucher, Miss Ann Lott and Mrs. Arthur Boynton, who served lunch to the approximately 40 members and guests.

3 Children Share McDannell Estate

The will of Laura R. McDannell, of Arendtsville, who died June 3 at the age of 75, has been entered for probate in the office of the county register and recorder.

Three children, Charles, Harry and Louise McDannell, Biglerville R. 2, are heirs of the "in excess of $17,000" property. Each is given a separate property and share the remainder of the estate.

Th will of Ruth Naomi Hofe, Littlestown, who died May 28 at age 71, has been entered for probate. The widower, Charles A. Hofe, 121 E. King St. is executor and heir of the $10,000 estate.

COUNTRY CLUB BURGLARIZED

In an early morning burglary at the Gettysburg Country Club today burglars stole about $100 in cash, cigarettes and a portable television set valued at $60 from the pro shop after breaking a window and four doors in the shop and clubhouse.

Don Stough, golf pro, said Arthur Kennell, greens superintendent, discovered the robbery at the clubhouse about 6 o'clock this morning when he opened up, but was unable to determine whether anything was mising. When Stough arrived, they found that the back door of the pro shop had been pried open with a bar. Entry to the shop was gained by breaking a window in the men's locker room, Stough said. The burglars failed to take any sports equipment.

Stough estimates that the burglary was committed after members left the monthly stag party shortly before 2 a.m. He was unable to estimate the amount of cash and cigarettes taken from the vending machine in the shop.

State police are investigating.

MARINES AND ARMY MAY JOIN VIET NAM WAR

By FRED S. HOFFMAN

WASHINGTON (AP) — Military officials said today a decision to commit U.S. Marine and Army troops to fight in support of South Vietnamese units, when requested, is a "logical extension of what we've been doing out there."

Over the past three months, operations of U.S. ground units have progressed gradually from a relatively static perimeter defense of the key base at Da Nang to aggressive patrolling variously called "combat kill" and "search and destroy" missions.

FIND THE ENEMY

"In any good defense, you've got to move out and find the enemy — and that's what we're doing in Viet Nam," one veteran officer said.

Patrols of Marines and Army paratroopers have ranged farther afield in seeking contact with the Communists. So far the action has been on a relatively small scale.

The decision to commit U.S. fighting units as "fire brigades" to help the South Vietnamese raises the possibility that Marines and paratroopers may become involved in major action in battalion strength and perhaps larger.

"COMBAT SUPPORT"

Acknowledgement by the State Department Tuesday that American fighting units are available for what is called "combat support" is a further retreat from the original U.S. position that American troops are in South Viet Nam not to wage war but to advise the South Vietnamese on how to win their own fight for security.

The new development could present a potentially sticky problem in relations between U.S. and Vietnamese officers.

Pentagon officials told a reporter they did not know at this time whether, for example, the U.S. Marine battalion sent to reinforce South Vietnamese troops would be under the command of a South Vietnamese officer if that officer on the scene outranked the American battalion commander.

GROUND RULES

The feeling was that ground rules would have to be nailed down before such operations take place, lest friction occur between the Americans and the South Vietnamese in the field.

There now are about 51,000 American servicemen in South Viet Nam. About 20,000 of these are Marines and Army paratroopers in combat units.

In addition, 4,000 Army troops in a brigade have been at least tentatively scheduled to land in South Viet Nam later this month to guard bases at Qui Nhon and Nha Trang on the South China Sea coast. Their assigned mission, according to informed sources, will be base security, counterinsurgency and combat operations.

Sen. Wayne Morse, D-Ore., a critic of U.S. policy in Viet Nam, predicted in a New York news conference Tuesday night that "within six months we will have 300,000 Americans in South Viet Nam." He said the new policy confirms "this is an American war now."

SOCIETY HEARS

(Continued From Page 1)

ing was over. One "12 pounder" round shot is still imbedded in the house and was shown to the historical society Tuesday night.

The shell came from the direction of Barlow's Knoll, broke through the attic and struck a partition on the second floor, where it remains. Two other shells embedded in the outside wall of the house were removed, apparently by thieves, during a period when the house was vacant some time ago.

BURIED VALUABLES

The Cobeans buried their valuables between the rows of the potato patch in the garden when they learned the Confederates were approaching. According to the recollections the Confederates dug up all the potatoes but missed the silverware, etc, buried between the rows.

A sword cane, which, according to the McIlhenny family tradition, was left behind by the general whose leg was removed, was displayed at Tuesday's meeting.

Originally more than 700 acres, the farm as one time extended from near the present Gettysburg College land, to beyond Boyd's School and east nearly to the Rock Creek beyond the Table Rock Rd.

David Dunwoody, who came from Scotland, was the first owner of the farm, obtaining it by grant from the Penns in 1793. It had been a part of the Penn's Manor of the Masque. But apparently Dunwoody resided there prior to the deed. Records of Rev. John Culbertson show that in 1751 the minister visited Dunwoody and baptized his daughter. The records listed Dunwoody as residing in the Marsh Creek Settlement—the early name for the Gettysburg area.

BUILT HOUSE IN 1805

David Dunwoody's son, Hugh, constructed the present house in 1805. One of the few Georgian-type homes in the area the house was constructed far back from the present Biglerville Rd. Butterfield said tradition has it that an Indian trail ran through the area along the front of the location of the house, continuing on past the McMillan house on W. Confederate Ave.

A shoe found by the Butterfields in the basement was displayed. Dr. Tilberg identified it as the type issued to Civil War soldiers and made to fit either foot. The soles of the shoe were attached by wooden pegs.

W. C. Darrah, program chairman for the historians, announced field trips for August and September.

GUESTS AT PARTY

Mr. and Mrs. Curvin Smith, 227 Ridge Ave., McSherrystown, were guests of honor at a recent surprise 25th anniversary party at their home. The affair was given by their children following their return from the New York World's Fair. Mr. and Mrs. Smith were married June 8, 1940, by Monsignor Patrick McGee of Annunciation parish. They are the parents of six children, Robert J. Smith, McSherrystown; Mrs. Victoria Wildasin, McSherrystown; Mrs. Barbara Sentz, M St., Littlestown; James, stationed in the Dominican Republic with the U.S. Army; Susan and Mary Helen, at home. Gifts were received and refreshments were served the following: Mr. and Mrs. George Smith, Hanover; Mr. and Mrs. Francis Smith, Littlestown; Mr. and Mrs. Raymond Smith, Mr. and Mrs. Edward Smith, Littlestown; Mr. and Mrs. Richard Smith, Gettysburg; Mrs. Roseline Heiner, MrMs. Mary Devine, McSherrystown.

LOCAL MAN WINS PH. D. DEGREE

Stephen G. Bishop, son of the Rev. and Mrs. John S. Bishop, 238 Buford Ave., received a Doctor of Philosophy degree in Physics from Brown University, Providence, R. I., during the university's 197th annual commencement Monday.

Dr. Bishop is a graduate of Gettysburg College, the class of 1960. He is a member of the Phi Beta Kappa society and the Lambda Chi Alpha fraternity. During his student days he worked three summers as a technician at the Naval Weapons Depot, Dalgrin, Va.

In his graduate studies he worked with a research group studying the nuclear magnetic resonance of various glases. In the summer of 1963 he was married to Miss Helen Evenson of Arlington, Va.

Dr. Bishop has accepted an appointment by the university as a research associate in the department of physics.

Add a little of the spice called "cumin" to chile con carne; it adds indefinable flavor.

NO REPLY ON FEDERAL AID

The Fairfield Water Authority has not received a response from the Department of Health, Education and Welfare concerning its application for federal aid to construct a sewerage treatment plant, members were told Tuesday evening at a meeting in the borough building. The authority was notified Feb. 26 that $36,710 had been authorized for the Fairfield plant.

The board was notified on April 9 that the application and plans for the system had been forwarded to the proper agency for review. William Sease, borough engineer, was authorized by the board to complete necessary forms to obtain the grant, but he reported that he has received no further communication from the agency.

Members are in agreement that "there is little chance of starting the project this year," because of the necessity of setting forth specifications for contractors' bids, arranging for financing and other details.

On Sunday morning at 10:15 o'clock St. John's Lutheran Church, Abbottstown, will observe its 180th anniversary. Dr. A. R. Steck, pastor emeritus of the First Lutheran Church, Carlisle, will be the speaker. The Abbottstown congregation was founded in 1760. The first edifice was a log structure. The second building was of brick and was erected in 1830. The third and present edifice was built of brick in 1889. All members of confirmation classes who are living will worship in Abbottstown Sunday. This is the first homecoming of all members of confirmation classes. It is the hope of St. John's to hold a homecoming for the classes each succeeding year. At this anniversary, the official board has planned that the small indebtedness shall be paid. The Rev. John R. Strevig is pastor of the church.

Miss Mary Lorraine McDermitt, daughter of Mr. and Mrs. Francis F. McDermitt, New Cumberland, became the bride of Joseph H. Riley, son of the late Mr. and Mrs. David Riley, at a nuptial mass in St. Francis Xavier Catholic Church Saturday morning, the thirtieth wedding anniversary of the bride's parents. The Rev. Fr. Raphael Gross, assistant rector of the church, performed the ceremony at 8 o'clock in the presence of a large number of friends and relatives. The bride wore a gown of white net over satin, with full bouffant skirt and short train. Her finger-tip veil was of silk net with a halo of orange blossoms. She carried a bridal bouquet of tiny white sweetheart roses and lilies of the valley. Miss Olive McDermitt, New Cumberland, sister of the bride, was the maid of honor. She wore pale blue marquisette. Jacob Riley, Hanover, a brother of the groom, was the best man and the ushers were Thomas Smith, Hanover and Philip Hoffman, Harrisburg. Immediately after the ceremony a wedding breakfast was served at the Battlefield Hotel.

LAWYER LANGUAGE

I am bothered by the phrases
lawyers often speak and write.
They seem to have a legal way of
proving black is white.
When I use a word I mean it, but
behind a lawyer's door
I find it's something different, as
I've mentioned heretofore.

I cuckle as I listen to the lawyers
in debate
Over what a simple sentence in a
contract seems to state.
Whereas I'd thought it binding,
an objection stands, to-wit:
"De minimis non curat lex"
makes trifles out of it.

As the doctors talking business so
the lawyers seem to be.
They are friends I like to be with
but their language puzzles me.
And when they speak in Latin, as
so frequently they do,
I am just "non compos mentis."
What they mean I wish I knew.

Letter To The Editor

Dear Mr. Roy:

Once again it is my privilege to convey to you the appreciation of the members of the Gettysburg Business and Professional Women's Club for the expeditious and complete news coverage afforded us during the past year.

This type of coverage is essential to a club which is to keep its members well informed as well as to instill community interest in its work.

We are indeed grateful.

Sincerely yours,

Today's Talk

RESPECT

Respect is the vestibule door to love. Without respect love becomes an idle dream. We are wary of the one whom we do not respect. He inspires no confidence in us. Respect is essential to important leadership, just the same as it is to genuine friendship.

Character, first of all, is what invites respect, for it is the sum total of all the elements in one's nature that stand for integrity, sincerity of effort and unselfish service. This respect which we look for others to pay to us must start with our own self respect. Not until we have inspired ourselves can we inspire others.

How many times we have heard it said of a person that he has had the respect of everyone. You don't have to agree with a person merely because you respect him, but that one is bound to impress you more the man himself. We get along best with those whom we respect.

When all the nations of this world come to the time when they will have honest respect for one another, and will talk over their differences together in frank fashion, we can then forget about spending the greater part of our substance in worry and taxes, and dismiss all our fears as to future wars. International understanding and respect could change the entire course of history — and how happily, if all nations were to respect one another. Not merely their physical and economic resources, but their sincere spiritual convictions.

We can learn a great deal from the one with whom we may have differences, but to whose judgment and intelligence we pay our respects. People listen to the one who thinks and says what he believes, whether others hold his views or not. Under all circumstances we should respect courage and independent expression.

Let us be tolerant and understanding — respect the views of the other fellow, giving him credit for his knowlede, beliefs, and achievements, and then try and render some service in return for what we have learned from him.

NATION'S TOP 120 STUDENTS GUESTS OF LBJ

By G. K. HODENFIELD
AP Education Writer

WASHINGTON (AP) — A handshake, a smile and a medal from President Johnson in the historic East Room of the White House. A buffet dinner on the South Lawn with Luci Baines Johnson as hostess. Heroes galore and entertainment under the soft light of the moon.

It added up to the biggest night ever in the lives of 120 of the nation's brightest youngsters.

There was Nantelle Smith of Enterprise, Ala., first of the presidential scholars to cross the small stage to where the President stood.

"I was so nervous I didn't even know where I was going," she said later.

NO DESIRE TO SLEEP

But she knew what she was going for—she clutched for dear life the box holding the medal.

Jane Grayson was perhaps the most tired of the scholars. Jane was valedictorian of her graduating class at Miami Beach (Fla.) Senior High Monday night. She caught a midnight flight to Washington, and found no time nor desire to sleep.

"This is all so wonderful," she said. "Just wonderful. I'll sleep some other time."

The boy from the big city looked southward across the South Lawn to where the Jefferson Memorial was bathed in a soft glow of light, whistled under his breath and said, "Boy, this is the prettiest back yard I've ever seen."

HAPPY PARENTS

The youngsters were front and center in the East Room, where President Johnson told them, "The life of your land is in good hands as its destiny passes, as it will, into your hands."

Their parents — all of whom have today a new definition of the word proud — sat behind them. Jammed around the walls stood distinguished guests from all walks of life.

The special heroes of the presidential scholars were two young men close to their own age, All-America basketball star Bill Bradley of Princeton, and Don Schollander, four-time gold medalist on the 1964 U.S. Olympic swimming team.

Bradley and Schollander, along with the President's daughter, Luci, appeared to have never a free moment.

2,500 U.S.

were killed today and 158 South Vietnamese troops were killed or missing in bloody actions north and south of Saigon.

404 U.S. LOSSES

This brought American combat casualties in Viet Nam to 404 since December 1961.

The Americans were killed when Communist guerrillas overran a training center for militiamen at Gia Ray, 50 miles northeast of Saigon near Xuan Loc. Fifty Vietnamese were reported killed and 24 Vietnamese and an American wounded while 30 government troops were reported missing. Officials said two Viet Cong were believed killed.

After burning much of the camp, the Viet Cong withdrew. A relief force was sent to the area but made no contact with the enemy and the station was abandoned.

In another heavy action, the government suffered 60 killed, 18 missing and 95 wounded in Phong Dinh Province, 95 miles southeast of Saigon. Viet Cong casualties were estimated at more than 50, but this was not confirmed.

Government troops and guerrillas clashed in the area Tuesday. As the fighting grew more intense, Vietnamese ranger units were airlifted into the battle.

OCEANPORT, N.J. (AP)—The American Football League's decision to tap Atlanta for a 1966 franchise, combined with the late-night ride of Pete Rozelle, has pushed the two professional leagues off the brink and over the precipice into a no-holds-barred expansion war.

While the AFL, in Oceanport, N.J., was awarding a franchise to Atlanta Tuesday, National League Commissioner Rozelle was in the Southern city, waving the NFL flag while stating, "Atlanta is a prime prospect for NFL expansion. We could expand with no trouble in 1966. We have discussed this."

NEED A FIELD

Then, suddenly, the emphasis shifted to the Cox Broadcasting Co., which had been awarded the AFL's Atlanta franchise for $7.5 million—the largest price ever paid for a pro football team. The awarding of the franchise, however, rests with the broadcasting company getting a suitable playing field.

That threw the ball to the Atlanta Stadium Authority, which has a new $25-million stadium for the use of the incoming Milwaukee Braves and apparently only one pro football team.

The authority, which met with both the Cox group and Rozelle, said it would wait until July 1 before making any announcement but that the stadium would be rented "effective for the 1966 season, in either football league."

HAVE TIME LIMIT

The key word appeared to be either—which seemed to preclude both.

Back to the Cox group, which issued a statement saying that their offer "also contained a time limit which would expire well in advance of the July 1 deadline. Therefore, they have taken the entire matter up for reconsideration. We are studying this matter. There has been no withdrawal."

A lateral to Foss, who said the matter of the stadium was an issue to be resolved between the stadium authority and the Cox group. But the commissioner did admit that the AFL franchise had been awarded contingent upon the Cox group having a suitable stadium.

HURRIED MOVE

That, at present, they do not have.

Last week Rozelle recommended that the NFL expand from 14 teams to 16 teams for the 1967 season. But Monday night, possibly apprehensive about the AFL moving into the television-rich Atlanta territory, Rozelle hopped a plane to Atlanta to plant the NFL flag.

The announcement of Atlanta's selection was not unexpected, but there was considerable surprise expressed at the AFL's inability to reach a decision on a 10th team for 1966.

Foss said he was "not disappointed. There were several applicants still involved from other cities to be considered for the 10th city and we decided to move on it systematically and orderly."

NEW YORK (AP) — Dick Weber of St. Louis and Betty Kuczynski of Chicago will receive Bowler of the Year plaques from the Metropolitan Bowling Writers Association at the group's fifth annual awards dinner here June 17. Announcement of the awards was made today.

PIRATES WIN ON BALK FOR 16 OUT OF 18

By DICK COUCH

Houston's Hal Woodeshick, who used to be National League's safest late inning risk this side of Al McBean, has become accident prone.

The Astros' southpaw relief specialist, who led NL pitchers with 22 saves last year and was a close second to Pittsburgh's McBean for Fireman of the Year laurels, handed the streaking Pirates a 7-6 victory Tuesday night by committing a two-out, bases-loaded balk in the 11th inning.

It was Pittsburgh's fourth straight victory and 16th in the last 18 starts, vaulting the Pirates back into the first division for the first time since April 25.

SHARE 5TH PLACE

In the cellar two weeks ago, they share fifth place with St. Louis, one game under .500, today.

The Astros, meanwhile, dropped their ninth extra-inning decision and 12th one-run game of the season. Woodeshick has been the villain in the last three one-run losses.

The 33-year-old veteran allowed only three home runs in 61 appearances last season.

Woodeshick checked a Pittsburgh rally in the ninth Tuesday night and pitched out of a jam in the 10th before failing in the 11th.

COMMITS BALK

Singles by Manny Mota and Bill Virdon and a walk to Roberto Clemente loaded the bases with one out. Andre Rodgers bounced to the mound but Woodeshick slipped fielding the ball and had to settle for a force at the plate. Then, with Donn Clendenon at bat, Woodeshick balked and Virdon trotted home with the winning run.

The first-place Los Angeles Dodgers nipped Philadelphia 2-1 on Maury Wills' run-scoring single in the ninth; Cincinnati edged St. Louis 5-4 on successive sixth-inning homers by Leo Cardenas and pinch-hitter Art Shamsky, and a two-run double by slump-ridden Willie Mays carried San Francisco past the New York Mets 2-1 in other NL night games.

4 HOMERS IN 10TH

Milwaukee exploded four homers in the 10th inning for an 8-2 victory over the Chicago Cubs in an afternoon game.

Lou Johnson opened the Dodgers' ninth with a single, moved around on a sacrifice and ground out and scored on Wills' hit, capping an LA comeback against Jim Bunning. The Philadelphia right-hander had a 1-0 lead until the eighth, when Wally Moon's run-scoring single tied it.

Cardenas, with one on, and Shamsky connected off St. Louis ace Bob Gibson, who has lost four in a row after winning his first eight decisions. The homers wiped out a 4-2 deficit and reliever Joe Nuxhall held the Cardinals hitless the rest of the way.

Mays, hitless in 18 previous trips to the plate, doubled off Galen Cisco in the first inning at New York, scoring Dick Schofield and Jesus Alou. Bob Shaw and reliever Frank Linzy made the runs stand up, Linzy pitching out of a bases-loaded bind in the ninth. Mets rookie Ron Swoboda homered off Shaw in the fifth.

Joe Torre's pinch-hit homer broke a 2-2 tie in the 10th inning at Chicago and, before the side went out, Felipe Alou, Gene Oliver and Hank Aaron had blasted homers, pulling the Braves out of reach.

Sylvania Shoe held off a fifth inning uprising and went on to defeat the Smith Nailers 6-5 Tuesday evening on St. Mary's Field. The win was Sylvania's fifth in as many outings.

Timmins, who went all the way on the mound for the victory, got things rolling in the first inning by putting Sylvania in front 2-0 on a long home run to center. Sylvania added another run in the second, but the Nailers bounced back with two in the bottom of the frame when Grimes tripled to left with McMaster and Lawrence on base.

After Sylvania scored two more in the third, the Nailers knotted the count at 5-5 in the fifth. A walk to J. Miller, singles by Marshall and Riley and a double by Folmer produced the trio of scores.

Sylvania pushed across the game winning tally in the top of the sixth when Staub and Livelsberger blasted out doubles.

Both Staub and Livelsberger paced the winner's attack with a pair of safeties while Marshall collected the same number for the losers.

HORLEN PACES WHITE SOX IN HURLING RACE

By MURRAY CHASS

Staging a revolution from the right, Joe Horlen has begun phase two in his attempt to overthrow lefty Gary Peters as strong man of the Chicago White Sox pitching staff.

Horlen pushed Peters closer to the brink Tuesday night, continuing his masterful pitching while adding a potent offensive weapon in Chicago's 7-2 victory over Boston.

The 27-year-old right-hander ignited his operation last season in taking the team lead in earned run average away from Peters. He hasn't let up at all this year and now is threatening to surpass Peters as the team's best hitting hurler.

GETS 3 SINGLES

Horlen collected three singles, the second driving in a sixth-inning run that snapped a 2-2 deadlock and put the White Sox ahead to stay. The performance shot Horlen's batting average to .250 compared with .138 for Peters, who often has been used as a pinch hitter.

His four-hit pitching, meanwhile, brought Horlen his sixth triumph, most on the team, against three defeats. His earned run average of 1.93 is Chicago's best as well as being among the best in the American League.

Peters, now 4-4 with a 3.81 ERA, won 20 games to 13 for Horlen last season, but the right-hander's ERA of 1.88 was the lowest for the White Sox in 35 years and second only to Dean Chance's 1.65 in the AL. Peters' ERA last year was 2.50.

Against the Red Sox, Horlen allowed two hits in the second inning, one of them Lee Thomas' 11th homer, and two more in the third, then retired the final 19 batters he faced. He didn't walk anyone and now is averaging less than one walk per game.

In other AL contests, Minnesota stopped Cleveland's five-game winning streak 6-2, Kansas City ended New York's four-game string 3-2, Los Angeles trimmed Detroit 3-1 and Washington blanked Baltimore 2-0.

Unbeaten Camilo Pascual won his eighth game after surviving Cleveland home runs by Rocky Colavito and Max Alvis. The Twins socked a pair of their own homers, Harmon Killebrew with two on in the first inning and Earl Battey with one aboard in the fourth.

HURLS 3-HITTER

John O'Donoghue brought his record to 3-7 with a three-hitter against the Yankees. He held New York hitless until the fifth inning when Clete Boyer tripled home two runs. The Athletics won it in the sixth on a bases-loaded single by Ed Charles.

Fred Newman turned in another outstanding pitching performance, holding Detroit to four hits and increasing his record to 7-3. The Angels broke a 1-1 deadlock with two sixth-inning runs as Willie Smith tripled in one and scored the other on Joe Adcock's single.

Washington handed Baltimore its second straight shutout as Pete Richert and Ron Kline combined for a four-hitter.

Fairfield Little League

The Braves moved into a tie for second place by defeating the Giants 14-1 Tuesday evening.

Mike Cornwell limited the Giants to but three hits, one of which was a triple by Bobby Harbaugh. He fanned 11, Bob Kessler poled three hits for the Braves including a single, double and triple while John Mohler collected three, two of which were doubles.

Gettysburg Little League

Scoring all their runs in the bottom of the first inning, the Rotary carried off a slim 6-5 decision Tuesday evening on the Little League diamond. The win moves the Rotary to within a half a game of the league-leading Elks.

The winners scored their runs on a combination of five hits and two walks. During the inning, Tim Bowling pounded out a single and a double. Jeff Crushong managed to retire the first six Bankers. In the third frame, the Bankers lashed out three hits including a long triple by Donmoyer, and added three walks to cross the plate four times. The losers came back again in the top of the sixth to produce another tally on a double by Orndorff and a single by Hankey.

Crushong and Johnson went the distance on the hill for their respective clubs. Crushong receives the win. After the first inning, Johnson gave up but two hits in the remaining four frames.

THREE TRADES ANNOUNCED BY HOCKEY LOOP

MONTREAL (AP) — Three trades, the minor league draft and a pair of waiver transactions have shuffled 26 players and set the stage for today's National Hockey League draft session, highlight of the league's summer meetings.

The New York Rangers and Boston Bruins, also-rans in the six-team league last season, figured in multi-player deals with Montreal and Tronto, respectively, Tuesday and were expected to be active today — when players not on their clubs' protected lists were subject to the intra-league draft.

The last-place Bruins acquired forward Ron Stewart, a 13-year Toronto veteran, from the Maple Leafs in exchange for defenseman Pat Stapleton and forwards Orland Kurtenbach and Andy Hebenton.

The fifth-place Rangers sent center Earl Ingarfield, a New York regular for five season, plus three minor leaguers — forwards Dave McComb and Gordon Labossiere, defenseman Noel Price — and an undisclosed amount of cash to the Canadiens for goalie Cesare Maniago and forward Gary Peters, Montreal farmhands in 1964-65.

The Canadiens also sent Bryan Watson, 22, to Chicago for Don Johns, 27, in a swap of second-line defensemen.

New York, seeking to strengthen its goalie complement after Jacques Plante's retirement announcement Monday night, also picked up veteran Don Simmons, who had played goalie previously for Boston and Toronto, in the minor league draft.

Finally, the Rangers acquired Billy Knibbs, 23-year-old center who divided last season between Boston and Minneapolis, from the Bruins for the $30,000 waiver price.

In other waiver deal, the Detroit Red Wings obtained Don McKenney, former Boston, New York and Toronto forward, from the Maple Leafs' Rochester AHL farm.

"You Ain't Seen Anything Yet" Says Expert On More Man-In-Space Launchings

By HOWARD BENEDICT
AP Aerospace Writer

HOUSTON, Tex. (AP) — A space agency official, commenting on the remarkable flight of Gemini 4, said: "You ain't seen nothing yet."

He was looking to future U.S. man-in-space flights which will be launched on an accelerated schedule as a result of the success of astronauts James A. McDivitt and Edward H. White II.

Gemini spacecraft will hook up with other satellites; the pilots will perform intricate maneuvers during trips up to two weeks; and men will walk and work outside their orbiting spacecraft for longer periods than the excursion made by White.

ON TO MOON

Then on to the moon—perhaps only three years from now — and man's greatest adventure.

Even as McDivitt and White were being hoisted from the Atlantic Ocean Monday after their four-day trip, the Titan 2 rocket for Gemini 8 was being erected at Cape Kennedy.

The crew will be veteran Astronaut L. Gordon Cooper Jr., whose 34-hour American spaceflight record was shattered by Gemini 4, and rookie pilot Charles Conrad Jr. They have a late August date with the stars.

Cooper and Conrad are to stay in space for seven days, but space agency officials hinted they could be up for a longer time — based on preliminary data from Gemini 4.

GOOD MISSION

Dr. Charles A. Berry, director of Gemini medical operations, said that preliminary examination of McDivitt and White indicates that "we've knocked down a lot of straw men with this mission."

He said that weightlessness apparently is not as dangerous as was feared, at least not for four days. Cooper had shown some disquieting symptoms, especially in the heart and blood vessel systems, as did Soviet cosmonaut Valery Bykovsky after his record five-day space trip.

Berry said that a rigid exercise schedule with a stretch cord apparently helped McDivitt and White to overcome any after-effects of weightlessness.

HEAT PROBLEM

Berry also listed the buildup of heat in a spacecraft as another toppled "straw man." He said a steady temperature of around 65 degrees, with no humidity, was maintained throughout the flight.

The physician said White experienced no dizziness during his space walk — as the Russian Alexei Leonov reported on his March 18 stroll.

Gemini project director Charles Mathews called Gemini 4 a milestone, "and now we're looking forward to the real interesting things contemplated in the future."

He said the Gemini 5 spacecraft will be somewhat different than Gemini 4. For one thing it will generate electrical power from a fuel cell — a device which converts liquid hydrogen and liquid oxygen into energy. It will replace bulky batteries with a great saving in weight.

NEW FUEL LIFE

The fuel cell will give Gemini 5 a long-life capability. A similar cell is being developed for Apollo man-to-the-moon flights.

Cooper and Conrad also will launch their own satellite from the nose of their spacecraft. It will be an instrumental sphere the size of a beach ball. Then they will use a radar system to practice rendezvousing with it. McDivitt and White had no radar to help in their futile attempt to maneuver close to the orbiting second stage of their booster rocket.

The rendezvous exercise will be a vital rehearsal for the first U.S. attempt to hook up a manned spacecraft with another orbiting satellite.

The flight is scheduled in October, with astronauts Walter M. Schirra Jr. and Thomas P. Stafford in Gemini 6. The target satellite will be the second stage of an Atlas-Agena rocket launched one or more orbits before Gemini 6.

BALKY EQUIPMENT

Stafford plans to leave the spacecraft after the hookup and practice working with tools on spacecraft nuts and bolts. He could be the forerunner of space repairmen who ferry between satellites to fix balky equipment.

Gemini 7 is planned as a 14-day mission in December. The remaining five flights in the Gemini program then will practice various rendezvous, docking and astronaut - emergence maneuvers.

Mathews said that the schedule will be flexible and that the success of Gemini 4 certainly should encourage attempts at bolder steps than originally envisioned.

EVERY 2 MONTHS

The Gemini program is expected to conclude late next year if it maintains a schedule of a flight every two months.

Starting in 1967, three-man Apollo teams will be launched into earth orbit to rehearse for moon shots. Initially, they will be boosted by the Saturn 1 rocket — a vehicle four times more powerful than the Titan 2.

Then will come the pulse-pounding earth orbit flights with the full 92,000-pound Apollo capsule boosted by the giant Saturn 5 with 20 times the power of Titan 2.

TEAM OF 3

If there are no hitches, Apollo program director Dr. Joseph Shea said that the first team of three astronauts could be launched to the moon on the third manned Saturn 5 rocket. That could mean a landing in 1968 instead of the present target date of 1969, he said.

After that?

Moon colonization; year-long trips to Mars, Venus and other points in the solar system; space stations that orbit for years.

All are being considered. Such will be the legacy of Gemini 4, the shots that preceded it and those that will follow.

Careless Driver Kisses License

NORTH HALEDON, N.J. (AP) — Eighty-one-year-old Charles Wildeboer kissed his driver's license goodby Monday night.

Appearing in court on a careless driving charge, Wildeboer, who's been driving a half-century, told the judge, "I think it's time to give it up."

Then he pressed his license to his lips and placed it on the bench.

ROME (AP)—An anonymous bomb threat stopped the music in two of Rome's most "in" nightclubs early Tuesday and drove the dancers out. There have been a rash of such bomb threats recently, all phony.

New Assignment For "Big Mamie"

NORFOLK, Va. (AP) — The battleship Massachusetts left the mothball fleet for good Tuesday for new duty as a war memorial.

The "Big Mamie" was towed north to Fall River, Mass., with 26 members of the Massachusetts' Memorial Commission aboard. Eleven were members of the Massachusetts' crew during World War II.

REDS LAUNCH NEW ROCKET TOWARD MOON

By FRED COLEMAN

MOSCOW (AP) — The Soviet Union launched a rocket toward the moon Tuesday in what appeared to be its second try in a month to make history's first soft landing on the lunar surface.

The Russians first tested their soft-landing system in Luna 5, which crashed on the moon May 12. But they said at the time that the flight had collected valuable data for further attempts.

Luna 6 launched appeared to be the next try at a soft lunar landing, a key step toward putting a man on the moon.

The announcement of the launch by Tass, the official Soviet news agency, made no mention of plans to test a landing system.

"EASY LANDING"

The original announcement of the Luna 5 launch did not mention such plans either. But later the Russians announced that an easy landing on the moon would be attempted. Previously they had waited until they had results and then said everything went according to plan.

A return to the earlier pattern of waiting for results was thought likely with Luna 6.

The official announcement called Luna 6 an "automatic station," the term the Russians normally use to describe an unmanned space craft.

The launch came a month after Luna 5 rocketed into space on May 9 and less than a day after the American Gemini 4 spacecraft returned safely.

Tass said the flight would continue about three and a half days and was proceeding on a trajectory close to the planned route.

It said Luna 6, like Luna 5, was launched by a multistage rocket. The last stage of the rocket was put into orbit around the earth and then launched the "automatic space station" on its flight to the moon, Tass said.

CASTRO CLAIMS SUGAR HARVEST

HAVANA (AP)—Prime Minister Fidel Castro ended the 1965 sugar harvest Monday night with the announcement that 6 millions tons have been produced.

Cuban sugar production regularly used to reach 6 million tons before 1961, when Castro tried to get away from the one-crop economy by shifting emphasis to other branches of agriculture and to heavy industry. This was reversed in 1963.

Last year's crop of 3.8 million tons was one of the lowest in recent years.

"From 3.8 million tons to 6 million is an unprecedented jump," Castro said in a radio and television broadcast.

Castro filled and sewed up the symbolic final sack of the harvest.

Newsmen See Color Film Of White's Walk In Space

HOUSTON, Tex. (AP) — Astronaut Edward White emerged casually from the Gemini 4 spacecraft in darkness, and, floating along with it at 17,500 miles an hour, moved into the blazing glare of the unfiltered sunlight.

The sun's rays first struck dramatically on an American flag sewn to his left sleeve.

This was shown vividly today in color movies made by an automatic camera attached to the underside of the spacecraft. The color film, in excellent focus, was run off for newsmen at the Manned Spacecraft Center.

BRIGHT COLOR

The pictures were made June 3 when White became the first American to venture into space protected only by his suit —and became the first human ever to propel himself in space with a jet-like gun.

The color film was strikingly bright.

The sun glistened on White's silvery space suit and sparkled on the 25-foot golden lifeline which attached him to the space ship.

Beneath him, the earth was a blue-green ball, with White floating just over its curve.

In White's right hand appeared to be the space gun with which he pushed himself around the capsule. His left hand was empty.

BLACKNESS OF SPACE

White stood out starkly against the blackness of space. The capsule appeared to be a nondescript gray.

White maneuvered slowly but with apparent ease. Twisting and turning about the space ship. Sometimes his movements seemed somewhat jerky. At one point he snapped off a salute.

The golden lifeline coiled and twisted as White worked his way, propelling himself with a space gun. The free end of a harness strap flapped about him.

The American movie far surpassed the films released by the Soviet Union of the first walk in space by Russian Alexei Leonov last March 18. The U. S. films were clearer and showed dramatically White's movements in space.

ONE STILL PICTURE

Space officials released one still picture in the series. It showed White, in almost a spreadeagle but apparently relaxed position, floating over the rim of the earth.

NASA said the picture was taken from a sequence of 16mm film shot automatically by the spacecraft's belly-mounted camera at six frames per second—slow motion for clarity.

Bob Schmidt, No. 3 catcher with the New York Yankees played with the San Francisco Giants, Cincinnati Reds and Washington Senators.

TODAY In History

By THE ASSOCIATED PRESS

Today is Wednesday, June 9, the 160th day of 1965. There are 205 days left in the year.

Today's highlight in history:

On this date in 1941, the War Department seized an airplane plant at Inglewood, Calif., when a striking union jeopardized the defense program. Control was returned to the owners July 2, after mediation.

On this date

In 1940, the Norwegian army surrendered to the Nazis.

In 1942, a combined Production and Resources board was set up by the United States and Britain.

NEAR CHERBOURG

In 1944, American troops in France plunged within 17 miles of Cherbourg.

In 1946, the king of Siam was found dead of a bullet wound.

In 1953, a tornado struck Worcester, Mass., leaving 97 dead and 1,250 injured.

Ten years ago — Nineteen seamen were lost when a Swedish tanker burned after colliding with a Panamanian freighter in the English Channel.

Five years ago — Hong Kong was hit by Typhoon Mary, which left at least 30 dead and 18,000 homeless.

One year ago — Twenty-eight were dead and 100 reported missing in flash floods in Montana.

Driver Killed In Tanker Mishap

PHILADELPHIA (AP) 8 A tractor-trailer loaded with fuel oil ran off Route 309 Expressway Tuesday in suburban Springfield Township, killing the driver, Albert Snyder, 39, Philadelphia. The accident occurred two miles north of City Line. Police said Snyder was descending a hill when his truck failed to negotiate a curve, ran off the highway and down an embankment where it overturned. The trailer split off from the tractor section and spilled fuel oil into the highway gutter.

Tanzania Joins In Denouncing Yanks

DAR ES SALAAM, Tanzania (AP)—Tanzania joined Communist China today in denouncing U.S. intervention in Viet Nam and the Dominican Republic and called for the withdrawal of American troops.

In a joint communique, Tanzania's President Julius Nyerere and visiting Premier Chou En-lai "expressed a deep conviction that with the support of the people of the whole world the Latin-American peoples would finally win their struggle against imperialism."

The communique was issued at the end of Chou's four-day visit.

SCOTT DOWNS PLAN TO NAME THREE JUDGES

WASHINGTON (AP) — The Senate Judiciary Committee, led by Sen. Hugh Scott, R-Pa., has turned down a proposal to create three additional temporary judges for, the heavily backloged Eastern District of Pennsylvania.

Scott's action — which drew sharp criticism from his Pennsylvania colleague, Democratic Sen. Joseph Clark—came Monday as the committee approved a bill to provide for 31 new U.S. District Court Judges and seven additional appellate court judges.

The committee closely followed the recommendation of the Judicial Conference of the United States, submitted in March. However, Scott made a motion to strike out the conference's proposal to set up the three judges in Pennsylvania's Easter District, and it passed by a voice vote.

CLARK CRITICISM

Clark said Scott's motion was "extraordinarily irresponsible" and added he would make "every responsible effort" to restore the three judgeships to the bill.

Clark added:

"I deplore the action of my colleague, Sen. Scott, in prevailing upon the Judiciary Committee to delete the judicial conference's recommendations for new judgeships for the Eastern District of Pennsylvania."

"The backlog there is among the heaviest in the country and I find no justification whatever for the action."

UNABLE TO STUDY

Scott said he asked the three temporary judgeships to be stricken from the bill because he had had no advance notice from the Justice Department and wanted more time to consider the proposal.

"I felt that inclusion of these judgeships in an omnibus bill warranted more careful consideration than the few minutes of time allowed us in committee," he said.

Scott also said in a statement that 14 men recently appointed to federal judgeships across the country have all been Democrats.

King Takes Over Moroccan Power

RABAT, Morocco (AP)—King Hassan II personally took over all executive power in Morocco today after failing to form a coalition government representing the country's major political and labor divisions.

The 36-year-old monarch said in a special broadcast that he was assuming all powers to "safeguard the stability of the government."

Hassan recalled that he had launched negotiations for a broad coalition government.

The negotiations followed bloody student uprisings in Morocco in which government troops fired on rampaging mobs causing a number

Industrial Use Of Silver Blamed For Metal Shortage

By SAM DAWSON

NEW YORK (AP) — Cutting down the amount of silver in U.S. coins isn't likely to lick the shortage of metal for some time.

Industrial demand has risen too fast, and world production has lagged too badly, for any quick solution to the shortage problem. Some think it could take five years at least to bring supply and demand into line.

The Johnson administration proposes to eliminate silver in dimes and quarters and to cut use of it by half in 50-cent pieces. The idea is to save Uncle Sam's dwindling supply of the metal — once so huge as to be considered a burden — and to remove him as a competitor with industry for any new supplies.

$500 MILLION IN COINS

About $500 million a year of the metal is going into U.S. coins as the mints strive to cope with the demand.

The rapid rise of vending machine living is only one reason for the growing demand for coins. Affluent Americans buying more things requires more change in more pockets. And the very growth of the population itself creates a demand for more coins.

But the industrial uses of silver have been the big new factor in the demand situation.

The silverware industry is only part of this picture. And it now accounts for only a minor part of the total industrial use. Photography uses considerably more than silverware. The use goes all the way from snapshots to X-ray films, industrial photography, defense photography.

INDUSTRIAL USES

Silver goes into almost all household appliances, autos, radios, television sets, telephones and mirrors. At the manufacturing level, silver is used in motors and generators, aircraft, atomic reactor control rods, farm machinery, switches and controls, electronic data processing equipment.

The defense industry is taking increasing amounts. Rockets and missiles find it essential. Supersonic aircraft and radar, submarine and torpedo batteries demand silver. Electrical equipment uses even more of the metal.

Production hasn't kept pace with rising demand. The Interior Department reports that exploration has been stepped up in recent months in the United States. But it still doubts if American production can supply more than a third of U.S. industrial demand in the next five years.

Edison was 32 when he invented the electric light.

Social Security

Q. How can I check on my social security account,

A. Ask for a special postcard form at your nearest social security office. It is Form OAR-7004 ("Request for Statement of Earnings"). If the report sent you from the Social Security Administration headquarters does not agree with your own records, get in touch with your social security office to correct the error.

Q. I receive income from my savings account at the bank, and they have asked me to get a social security number for identification. I already have a social security number; do I have to get another one for the bank?

A. No. Only one number is necessary for both purposes. Your social security number is also used as a taxpayer's identification number for Internal Revenue Service purposes.

Q. What is the total amount of social security tax which should have been witheld from my wages in 1964?

A. The employe's portion of the social security tax for 1964 is 3⅝ percent of wages up to $4,800, which would result in a maximum of $174 being withheld.

NUMBERS CHIEF CLAIMS BUYING POLICE GUARD

PITTSBURGH (AP)—An accused numbers operator says he bought protection from Pittsburgh's assistant superintendent of police for $200 a month during 1962 and 1963.

Marvin D. Walkow, 55, of the city's East Liberty section was the first witness Tuesday in the government's income tax evasion case against Lawrence J. Maloney, under suspension pending outcome of the trial.

Maloney is accused of failing to report $220,873 in alleged income from 1958 through 1963. The government says the money represents bribes paid to Maloney for racket protection.

Walkow testified that while he was paying $200 a month to Maloney he also was paying $50 a month to patrolman Melvin MacDonald to sell numbers on the city's North Side.

Walkow said he complained to Maloney about the double payment and was told he could quit paying MacDonald. The patrolman currently is under suspension from the force in connection with an unrelated matter.

Internal Revenue Service agents arrested Walkow in 1964 on federal gambling tax charges and he faces prosecution.

The trial before Judge Herbert P. Sorg in U.S. District Court is expected to last most of the summer.

GENETICS PLAN MAY DEVELOP HUMAN BABIES

By KATHIE DIBELL

BALTIMORE, Md. (AP)—The beginnings of test-tube babies? Sperm and egg banks for delayed procreation? A license to have children? All by 1984?

Possibly, says a geneticist—Dr. Bentley Glass, Johns Hopkins University professor of biology who recently was named academic vice president of the State University of New York at Stony Brook, N.Y.

Glass emphasized in a recent interview he was not forecasting that "you can grow babies in bottles" in the next 20 years.

LABORATORY EMBRYO

But he envisions growing test-tube human embryos for a reproduction process he calls "prenatal adoption."

A female egg would be fertilized by sperm in a laboratory culture. The resulting human embryo would be nurtured in the laboratory up to 10 days and then implanted in a woman's uterus to mature and be born—in the conventional manner.

"The offspring would not be the genetic child of the couple," Glass said, since both the egg and the sperm would be taken from donors.

PRENATAL ADOPTION

Glass considers "prenatal adoption" superior to regular adoption and to artificial insemination for couples who could not normally have children.

In artificial insemination, the fertile wife is made pregnant by a donor sperm.

In prenatal adoption, both husband and wife are equally not responsible genetically and yet the pregnancy and birth resemble the natural process so much that it would "produce the same kind of parental reaction," Glass thinks.

He believes this is possible within 20 years.

"Within two decades it will be possible to take material from selected individuals and grow supplies" of donor male sperm and female eggs and mate them, he said.

'ETHICAL CREATION"

"I believe the creation of life in this matter is ethical," said Glass, who is the son of Baptist missionaries.

Glass also thinks the storing of sperms and eggs for future artificial mating will be possible within the next two decades, and perhaps desirable as a general practice.

The radiation one normally absorbs through the years causes mutations in the genes, which can result in deformed children, he said.

SPERM BANKS

Birth control enables some couples to wait until they can afford children. While their bank account grows, so do the gene mutations.

"To avoid this, sperm and egg banks could be established for every individual," Glass said.

Glass suggested that before the century is out, couples in some overpopulated countries may be issued licenses to have a limited number of babies, along with their marriage licenses.

Penalties would be invoked if a couple exceeded its legal limit.

DONNA TO PLAY "FRANKIE" IN PRESLEY FILM

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD (AP) — Donna Douglas is vacationing from "The Beverly Hillbillies" to play Frankie to Elvis Presley's Johnny.

It's a big step for a girl whose last movie role was as a secretary in "Lover Come Back." But her first starring film finds Donna in her usual condition: "With my head in the air and my feet on the ground."

You might as well know that Donna is a mystic, a girl with a philosophical approach to her life and work unusual for one of only 24 years. Her conversation is studded with observations like: "You can have success if you can handle it."

HANDLES SUCCESS

She seems to be handling hers. She came up the hard way, from beauty contests to letters girl on the Perry Como Show to bits in movies like "Career" and "Li'l Abner." Then producer-writer Paul Henning asked her if she could handle the role of Elly Mae in "The Beverly Hillbillies."

"I just looked at him and grinned," recalled the pride of Baywood, La. "Could I handle Elly Mae? Why, it was just like my own life."

Donna, who had struggled to erase her cornpone drawl, had to recover it for the series. In the face of sneers from the critics, the "Hillbillies" became the No. 1 show in audience ratings. That meant instant fame for Donna Douglas, born Doris Smith.

TURNED DOWN POST

"Some people can't handle success; it's too much for them," she opined. "They aren't willing to give as well as receive. It's important to do both."

Donna's casting opposite Presley in "Frankie and Johnny" came about after one of her messages — she gets them all the time, and not from Western Union.

"After we finished the season for 'Hillbillies,' I went to Australia to publicize the show," she explained. "I could have gone on a personal appearance tour in this country during our summer vacation, but something told me not to. And sure enough, when I got back, they called me about the picture."

As soon as Donna finishes "Frankie and Johnny," she heads back to her work as Elly Mae. She has served three years and is under contract for another three

SPRANKLE REUNION

Nearly 100 descendants of the late Marshall and Annie Butt Sprankle, Fountaindale, held their first annual family reunion Sunday at Catoctin Mountain Park and established the first Sunday in June for the annual affair to be held at the park. Prizes were awarded to Mrs. Lucy Bowling, oldest relatives; Teresa Marie Joy, youngest; Joseph Bowling, largest family, and Esther Ann Hrivnak, traveling the greatest distance. Members of the family came from Gettysburg, Emmitsburg, Fairfield, Waynesboro, Washington, D. C., Hagerstown, Delaware, Blue Ridge Summit, Rouzerville and Greencastle.

CHARGE PAIR KILLED WOMAN

JIM THORPE, Pa. (AP) — Two men have been indicted for murder in Carbon County Court on charges they beat a Jim Thorpe woman to death with a rock.

The men—Edward E. Eckhart, 34 of Palmerton, and Harry J. Reiber, 21, of Lansford, were indicted Tuesday and ordered held without bail for trial. They are charged with slaying Mrs. Carolyn Juliano on a rural road in Penn Forrest Township, near Jim Thrope, last May 17.

olice said Reiber drove Eckhart to the scene of the slaying and prevented Mrs. Juliano from escaping. They said Eckhart struck Mrs. Juliano with a rock after an argument.

Mrs. Ruth Haupt, Mrs. Juliano's sister, who police said was riding in the Juliano car at the time of the murder, testified Tuesday for the state before the Carbon County grand jury.

Supreme Court Escapes Criticism By Avoiding Religion And Politics

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — The Supreme Court handed down some historic decisions in the 1964-65 term ending Monday but escaped the torrential abuse of other years for a simple reason.

It did not poke around much in the highly sensitive fields of religion and politics. Thus, with no new logs on the fire, all the talk of curbing the court or undoing its decisions once more got nowhere.

Again this court, as it has since Chief Justice Earl Warren took his seat in 1954, continued to broaden its protection of individual rights and liberties. Yet, the range of its work was wide.

Here were some of its most memorable actions:

FIRST RIGHTS TEST

In the first test of the 1964 Civil Rights Act, the court upheld the public-accommodations section requiring restaurants and motels to serve all races if the restaurants' customers or food move in interstate commerce.

Two years ago the court, extending constitutional protections to state criminal trials, said a defendant had a right to an attorney in all key stages of the proceedings.

This year the court extended this by ruling a defendant in such a trial had a right to face and question witnesses against him.

BARS COMMUNISTS

The court barred state judges and prosecutors from commenting to juries if a defendant — exercising his constitutional right to say nothing — refused to take the stand in his own defense.

But the court also decided a defendant's constitutional right to trial by jury does not include the right to demand a trial without jury in a criminal case when either the prosecutor or judge does not agree.

One of the most sensational decisions came Monday when the court threw out the conviction of Billie Sol Estes on a Texas swindling charge because his trial was televised.

"DAY IN COURT"

"A defendant on trial for a specific crime," the court said, "is entitled to his day in court, not in a stadium or a city or a nationwide arena. Trial by television is therefore foreign to our system."

But some justices indicated this is not the last word on televised trials.

And the court in effect upheld the California Supreme Court in overturning the conviction of a convict, who stabbed a fellow-prisoner to death, because the confession used against him was taken by officers who did not advise him of his right to an attorney and his right to stay silent.

POLITICAL BOLT

In 1962 and 1964 the court created a political revolution by its reapportionment decisions which said election to the U.S. House of Representatives and both houses in a state legislature must be made more democratic by giving all voters an equal voice. The court didn't add to them this year. It just stood pat.

In 1962 and 1963 the court brought the roof down by barring official prayers in public schools and of a pledge of allegiance containing the words "under God."

BAR CUBA VISIT

And the court upheld the State Department in refusing a ski resort operator a passport to Cuba. He said his only reason for going was to be informed. The department says only those can go whose travel might serve this country's interest.

The court, voiding a Louisiana requirement that would-be voters must satisfactorily interpret the U.S. or state constitutions, said this test was part of a plan to deprive Negroes of their right to vote. Louisiana has abandoned this requirement but other states have similar ones.

In the labor field the court said an employer may shut down his business for any reason — he might not want to deal with a union — but he may not shut down just a part of it to avoid dealing.

Yet, the court agreed unanimously that when an employer reaches a dead-end in negotiations with a union for a new contract, he can lock out the employes temporarily to put economic pressure on the union.

Further, the court ruled unconstitutional a federal law making it a crime for a Communist to serve as an official of a labor union; and it said unions forfeit their exemption from antitrust laws if they conspire with certain employers to drive other employers out of business.

And — the court broadened the freedom of citizens to criticize public officials without penalty, saying statements made in ill-will are not grounds for criminal libel unless made with "reckless disregard" for the truth.

Plans To Fight PTC Purchase

PHILADELPHIA (AP) — Albert Lyons, president of the Philadelphia Transportation Co. says he will fight in court a move by the Southeastern Pennsylvania Transit Authority to purchase the PTC.

The transit authority announced Tuesday it intends to purchase the privately-owned transit company under the terms of a 1907 agreement.

The agreement gave the City of Philadelphia an option to purchase PTC. But the City Council on Thursday passed an ordinance transferring its purchase option to the transit authority. The transit authority said it intends to exercise the option on July 1, 1966.

Loyons and major PTC stockholers contend the 1907 agreement and option are legally worthless.

The state legislature created the Southeastern Pennsylvania Transportation Authority to operate a mass transportation sysem in the counties of Philadelphia, Delaware, Montgomery, Bucks, and Chester.

BOYLE'S Grab Bag

CHU LAI, South Viet Nam (AP) — The Seabees building a new attack airstrip here have a real sky pilot as chaplain.

He is Lt. George M. Sheldon, Olympia, Wash., a former naval combat flier who flew 71 missions in Korea off the carrier Philippine Sea. He also holds five Air Medals and the Distinguished Flying Cross.

The chaplain, who served 13 years as a line officer in the Navy after graduating from Annapolis, is highly popular with the nearly 600 members of Mobile Construction Battalion 10.

HARD WORK

As one of the Seabees said:

"We do hard, sweaty work from 12 to 18 hours a day. When we have a problem, we need someone to talk to who can talk out language. The padre can."

Chaplain Sheldon is 6 foot 1, has hazel eyes, closecropped, iron-gray hair and a Lincolnesque countenance. He wears a gold cross on his shirt and a big colorful Vietnamese jungle hat that makes him easily identifiable from a distance.

Seated in a hot tent not far from the supplies-strewn beach, Lt. Sheldon told why he gave up combat flying to preach the Gospel.

"A variety of things led me to the ministry," he said. "When I joined the Episcopal Church in 1955, I made a commitment to Christ and his Church. I began to read the Bible as a coherent whole rather than as bits and piecemeal. Gradually I came to the conviction that this was the work I should follow."

ENTERED SCHOOL

He resigned from active naval duty in 1959 to enter the Divinity Cchool of the Pacific at Berkeley, Calif. After graduating in 1962, he served in parishes in the San Francisco Bay area and Salt Lake City before rejoining the Navy.

The padre works as hard as any Seabee himself. He holds six religious services weekly for the Seabees and Marines, helps in the military's people-to-people program, and is active in the direction of a native orphanage. But his greatest satisfaction comes from the endless hours of counseling men who come to him for help — Protestants, Catholics and Jews alike.

TYPICAL PROBLEMS

"They are typical of the problems of men away from home — loneliness, financial difficulties, and worries over the stability of their marriages," he said. "Occasionally, there is a man who doesn't adjust well to military life and believes he is being picked on.

"Our biggest problems result from communications failures — when the men don't get letters from home regularly or don't write home regularly themselves.

MAIL FOR MORALE

"Mail is the greatest morale builder. The simple words 'I love you' are still the most important in the world."

Chaplain Sheldon, whose wife and two children live in Oxnard, Calif., hasn't flown an airplane for nine years, still hankers to now and then.

"But I like this work better," he said. "The thrill of flying is essentially selfish and can be shared only with other people in the same game. But any kind of ministry — whether it be preaching, teaching, nursing or healing — involves the giving of self to others.

"The tangible rewards are not very great. But the intangible rewards are."

DA NANG, South Viet Nam (AP) — The jet planes raced down the runway with an ear-cracking roar. They rose gracefully, then, like angry hornets, darted toward their targets in North Viet Nam.

The sight gave a thrill to Col. William O. Ezell, 44, Chattanooga, Tenn., the base commander. It always does.

He takes a paternal pride in the huge air base here which he believes now is one of the 10 busiest airports in the entire world.

BUSY FIELD

"Less than a year ago this wasn't much more than just a country airstrip," he recalled. "In terms of traffic, we've gone up 10-fold in the last 11 months.

"We average more than 25,000 landings and takeoffs a month, not counting our helicopter operations. We can hardly keep track of them."

The base is full of ironic contrasts between the old and the new. The 10,000-foot runway is in the suburbs of South Viet Nam's second largest city.

The base lies in a stretch of sand and dust between high green hills, laced with white mist, and the endless blue waters of the South China Sea. It is bordered by crumbling old French forts, a poverty-stricken, one-street village known as "Dogpatch," and a cemetery studded with forgotten tombs over which lonely winds blow eerily.

DAILY "DRAMAS"

On the 3.4-square-mile area of the base ironic dramas of life and death are enacted daily.

In a five-minute period a helicopter may whir down with dead and wounded. A C123 supply plane may bring in an ailing Montegnard soldier from an isolated mountain camp. A civilian Caravelle, staffed by pretty, blue-uniformed Vietnamese hostesses, land with a group of Saigon businessmen. A squadron of propeller-driven Skyraiders takes off to strafe enemy Viet Cong only a few miles away or flights of jets zoom up on a three-hour mission against bridges in North Viet Nam.

"We thought we had reached our capacity six months ago, but now I think we can expand considerably more," said Ezell, who flew 394 combat missions in the Far East as a B29 commander in World War II."

The booming base is a bewildering maze of revetments, ammo and fuel dumps, and some 40 buildings in various stages of construction. A shortage of building materials and skilled local labor has been the colonel's biggest problem.

About 3,000 of the 6,000 U.S. Air Force men still sleep in tents. The Vietnamese fliers and hundreds of their dependents also are housed on the base. The wives have created a flourishing industry by doing the American airmen's laundry.

The base has an excellent safety record.

Ezell, knocking three times on wood, said:

"This field never has been hit by the enemy—not as of today, anyway."

U.S. Marines who surround the base intend to keep that record intact.

Hold Juveniles In Boy's Murder

PHILADELPHIA (AP) — Three Negro juveniles will be tried in adult court on charges that they beat and stabbed a handicapped white boy to death.

County Court Judge Clifford Scott Green Tuesday ordered the three—Albert Mitchell, 15, Robert Bell, 17, and James Tinsley, 17—held without bail for adult criminal court action.

They are accused of killing Elmre T. Rush, 15, a junior high school student. Police said the youths selected Rush at random in order to get revenge for a Negro boy who was stabbed by a gang of whites in the same neighborhood.

Police said they knocked Rush down and then stabbed him in the back with a penknife. Rush had been handicapped ever since a childhood accident and could not defend himself.

HOUSE PASSES INSURANCE AID ON SECOND TRY

HARRISBURG (AP) — The House did an about-face Tuesday, passing 203-2 a bill it defeated 89-112 two weeks ago.

The measure, sent to the Senate, would prohibit the offering of free insurance as an inducement for the purchase or rental of goods, securities or services.

In a related action, the House also sent to the Senate on a vote of 199-5 legislation to outlaw the giving of money or goods to induce persons to register in a particular political party or change his party registration.

The insurance bill was defeated on its first time around May 25 because of the opposition of the Pennsylvania AFL-CIO, which said it would prohibit the offering of free life insurance to cover payment of a purchase in the event of death.

However, Rep. Nicholas Kornick, D-Fayette, prime sponsor of the proposal, explained later that the labor organization was under a misconception when the first vote was taken and since has thrown its support behind the bill. The measure also was amended between the first and second votes to exempt employe-employer contracts where life insurance plays a part.

Bill Prohibits Horse Tampering

HARRISBURG (AP)— A bill designed to discourage tampering with race horses is before the Senate with bipartisan sponsorship.

The measure, introduced Tuesday, designates the offense as a felony and proposes a maximum penalty of three years imprisonment in a state correctional institution.

Other new bills would:

—Make public water suppliers immune from liability when their facilities fail to function adequately in fire emergencies.

—Require the Department of Labor and Industry to employ councelors for rehabilitated persons who are unemployed and mentally retarded.

—Give county commissioners power to adopt water pollution ordinances.

$300,000 Granted To Improve Canal

HARRISBURG (AP)—A $300,000 appropriation was proposed in the House Tuesday for improvement of the Delaware Canal in Bristol, Bucks County.

Referred to committee, the bill (H1352 was sponsored by Rep. James J. A. Gallagher, D-Bucks.

Michigan State golfer Ken Benson won the Chicago District Golf Association match play title in 1963 and repeated in 1964.

SENATE LOOKS AT ANIMAL BILL

HARRISBURG (AP) — An amended cruelty-to-animals bill reached the floor of the Senate Tuesday, but a prime sponsor said the changes would have no substantial effect on the intent of the legislation.

The bill, designed to provide more severe penalties and tighter control over cruelty to animals, was released from the Senate Agriculture Committee.

But before the bill was freed, the committee amended the measure to drop the maximum penalty from a proposed $1,000 fine and one year imprisonment to $500.

Present law requires a minimum of $10 fine upon conviction.

The committee, working in close contact with the state Agriculture Department, also deleted many proposals it considered too impractical to regulate.

These included a provision that animals be separated by species and sex when being transported.

Reformed Church Approves Merger

BUCK HILL FALLS, Pa., (AP)—The general Synod of the Reformed Church in America has approved the preparation of plans for a merger with the Presbyterian Church in the United States.

The synod voted Tuesday to instruct the joint committee of the two denominations "to begin drafting a plan of union for possible presentation to the national assemblies not later than $968."

A similar measure was approved last April by the General Assembly of the Presbyterian Church in the United States.

A spokesman for the reformed Church said the organization has 200,000 communicant members, mainly in New York, New Jersey, Michigan, Indiana, Illinois, Wisconsin, Iowa and California.

He said the Presbyterians have four times as many communicants, located primarily in the southern states.

Widner Fills Top Appalachia Post

WASHINGTON (AP)— Ralph R. Widner, legislative assistant to Sen. Joseph S. Clark, D-Pa., has been appointed executive director of the Appalachia Regional Commission.

Widner, whose appointment was announced Tuesday by the commission, is a former director of the Pennsylvania Planning Board. He served as director of public affairs for the Pennsylvania Department of Forests and Waters from 1958 to 1960.

MAJOR LOOPS HOPE TO SIGN SCHOOL STARS

By JOE REICHLER
Associated Press Sports Writer

NEW YORK (AP) — Baseball executives may have some persuasion problems ahead of them but they expressed confidence today that virtually all of the 20 high school and college players picked in the first round of the free-agent draft will be signed long before the six-month deadline.

It won't be smooth sailing all the way for the baseball clubs who selected 320 youngsters Tuesday and may pick at least that many more today in the unprecedented draft.

The baseball owners may have to pay out more money than they figured in some cases. They may yield thousands of dollars here and there because there are some people in baseball and in Congress who doubt the legality of the draft.

LEON ASKS $20,000

Minnesota's Twins may have to up their bid to Eddie Leon, an 18-year-old shortstop from the University of Arizona. The youngster was quoted in Tucson as saying he would remain in school unless he was offered more than $20,000.

Calvin Griffith, president of the Twins, acknowledged Leon had been contacted but he declined comment on whether a definite offer had been made to the talented sophomore.

Other first-round picks appeared set to sign for bonuses ranging up to $100,000.

Catcher Ken Plesha, who just completed his sophomore year at Notre Dame, already has been signed by the Chicago White Sox. The figure was believed to be around $25,000.

MANY SEEK MONDAY

Another, highly publicized selection, Rick Monday, was expected to sign a Kansas City contract just as soon as the College Baseball World Series at Omaha, Neb., comes to an end.

Monday, a 19-year-old sophomore outfielder at Arizona State U., was the No. 1 draft choice.

Hank Peters, general manager of the A's, said he planned to fly to Tempe, Ariz., next week. He indicated he would offer Monday about $100,000 and smilingly added that he anticipated no difficulty in signing the left-handed hitter.

The New York Mets, who had second choice because of their last-place finish in the National League — the clubs picked in inverse order of their 1964 finish — chose Les Rohr, a highly regarded left-hander from West High School in Billings, Mont.

Bing Devine, assistant to the president of the Mets, spoke with Rohr and his father even before the second round of the draft was concluded and indicated he expected no trouble in signing the 6-foot-5, 19-year-old pitcher. An educated guess is that Rohr will receive a bonus of $50,000.

HYNDMAN TOPS GOLF TOURNEY AT AGE OF 49

PORTHCAWL, Wales (AP) — Bill Hyndman rustled up his 49-year-old bones today and, given a little more lousy British weather, he can be a golf champion in these parts.

The Philadelphia insurance broker went into the third round of the British Amateur Championship. Leading the American contingent of 15 among the remaining 64 entries, he was never more competent in his game, nor confident in his outlook.

At almost a half century, Hyndman would be defying history to win this weeklong marathon. But he hasn't been convinced he can't do it — not after Tuesday's 7 and 6 triumph in which he was one under par for the short distance of his battle and hitting the ball straight down the middle. He beat England's Mike Bills.

3RD IN MASTERS

"I was third amateur in the Masters at Augusta this year," said Hyndman, "and that was after taking 75 putts in the last two rounds.

"But it was too hot and too dry and most every time I play in a championship in the United States now I lose many pounds. Here I play in comfort."

Hyndman's sharp play and that of Bob Gardner, 44, of Essex Fells, N.J., and Dick Chapman, 54, of Palm Beach, Fla., illustrated that the grey beards of the American assault are factors which the home guard fear.

While they were coasting along, British youngsters were falling by the wayside as rain and cold struck the 6,700-yard par 72 Royal Porthcawl links on the shores of the Bristol Channel.

NEW YORK (AP) — Can Sam Snead at 53 still win the Open?

Sam thinks he can — and there's not a man swinging a club who dares say he cannot.

"All I need is a good start," the astounding slammer from White Sulphur Springs, W.Va., drawled after firing rounds of 67-70 for 137 over the par 71 Birmingham, Mich., Country Club Tuesday that qualified him for his 25th shot at the Open title.

Snead, who has won more than 100 PGA tournaments and the last as late as this past spring, scoffs at the suggestion that the Open has him jinxed.

"It's just like any other tournament — there are 18 holes and the same players," Sam said. "I have quit tensing up. It doesn't scare me. If I can get a good start and get my confidence going, I think I can do all right.

PLAYING WELL

"I'm playing as well as I ever did. It's just the putting that gets me."

The 65th Open is scheduled June 17-20 over the Bellerive Country Club course in St. Louis. Thirty-one players, including defending champion Ken Venturi and such stars as Jack Nicklaus, Arnold Palmer, Bobby Nichols and Gary Player, were exempt from qualifying.

One hundred and 19 players had to earn entry into the tournament field in a scramble involving 459. One of these was Snead, who has won three Masters, three PGAs, the British Open but never the U.S. Open although he was four times a runner-up.

ONE SHOT SHY

Snead's 137 was just one shot shy of the low qualifying figure during the two days of sectional tests. Leaders with 136 were Deane Beman of Bethesda, Md., twice the National Amateur champion who led the list at Chevy Chase, Md.; Howie Johnson of Palm Springs, Calif., who beat out Snead at Birmingham; Charles Coody of Perrytown, Tex., who paced the 106-man field at Cleveland, and Duff Lawrence of Columbus, Ohio, leader in Monday's trials. All had 68-68—136.

The list of those who failed to make the grade was almost as imposing as of those who did.

Failures included two-time winner Dr. Cary Middlecoff, former Open champions Tommy Bolt, Lew Worsham and Tony Manero and ex-PGA kings Jerry Barber, Doug Ford, Vic Ghezzi, Walter Burkemo and Jim Turnesa.

Eastern League

By THE ASSOCIATED PRESS

Felix Maldonado achieved the goal of every pinch hitter—a home run—and helped boost the Pittsfield Red Sox to a 6-4 victory over the York White Roses in the Class AA Eastern League Tuesday.

Maldonado's pinch-hit homer in the sixth inning, scored three runs and overcame the White Roses' 4-2 lead.

In other Eastern League games, Ed Watt, of double no-hit game fame, pitched the Elmira Pioneers to a 3-0 victory over the Springfield Giants, and Williamsport defeated Reading 4-0 to remain in the thick of the league race.

York had rallied for four runs in the top of the sixth to grab the lead. Then the league-leading Red Sox got two batteres on base, and Maldonado was called on to hit for pitcher John Hawkins. The homer, Maldonado's sxith of the season, gave Hawkins his fourth victory against one defeat.

SAVES GAME

With Hawkins out, after pitching just one inning, John Boyle came in to preserve the victory by retiring the next nine batters, three on strikeouts.

Watt, backed by the hitting of Lee Green, boosted his record to 6-1 with Tuesday's shutout over Springfield.

Green had a run-scoring triple and a double and boosted his batting average to .429. The loser was Springfield pitching ace Tommy Arruda, now 4-2.

Bob Schmidt pitched the shutout at Williamsport, although he gave up eight hits, including four doubles. It was Schmidt's fifth victory against one defeat. Chuck Kovach was the loser, and is now 5-5.

Woodsman's Ax Is Stayed For Births

ROCKFORD, Ill. (AP) — When concern spread through the Hallstrom School that a popular tree would get an ax, a reprieve was granted to permit a robin and four blue eggs to remain unmolested.

Children and teachers breathed a sigh of relief as the stay of execution was granted by the Board of Education officer.

Gerald Raasch, director of buildings and grounds, said the tree is scheduled to be cut down because its roots are breaking into the foundation of the school building.

Upper Adams Little League

All home teams triumphed as the Upper Adams Little League inaugurated its 1965 season Tuesday evening.

The Arendtsville Pirates downed the Bendersville Braves 6-1, rain halting the game after four innings. Steve Kane led the winners with three hits in as many times at bat.

Score by innings:

Braves	100 0—1-3-2
Pirates	321 0—6-9-0

Batteries: Braves — Taylor and Routsong; Pirates—Bobby Baker and Steve Kane.

At Bendersville the Yankees pushed over nine runs in the first two innings and went on to a 12-6 decision over the Biglerville Red Sox.

Lynn Slaybaugh struck out five in going the route for the Yankees. Tony Yohe and Jim Mickley each rapped a pair of hits for the Yanks and Mat Tuckey pounded a double. M. Haller poled a single, double and triple, and P. Lady two singles and a double for the Red Sox.

Score by innings:

Red Sox	010 023— 6
Yankees	450 03x—12

Batteries: Red Sox — G. Haller, Dennison and M. Haller; Yankees — Slaybaugh and Bernie Cook.

The Biglerville Phillies nipped the Arendtsville Cardinals 5-3 in a game which resolved itself into a fine pitchers' duel between D. Guise, the winner, and Mike McGlaughlin. Both allowed four hits. Guise fanned nine, walked one and hit one. McGlaughlin whiffed seven and issued three passes.

The Phillies' hits included a double by H. Hollabaugh. McGlaughlin cracked a single and homer for the Cards with M. Knouse and J. McGlaughlin each adding singles.

Score by innings:

Cards	002 001—3-4-2
Phillies	200 30x—5-4-2

Batteries: Cards — Mike McGlaughlin and M. Kump. Phillies — D. Guise and D. Gorman.

BUSY WEEKEND AT W-G TRACK

MECHANICSBURG — Another busy weekend is on tap for the Williams Grove Speedway. Friday at 8:30 p.m., the sportsman modified stock cars resume their weekly struggle for supremacy in a five-event card. It will also mark the end of the single show, at least for a while.

Friday, June 18, the semilate model cars join the modifieds for a doubleheader diet each and every Friday.

This Sunday marks the first in a series of modified championship events. If this is successful, Bob Richwine intends to present one each month and possibly more as the occasion warrants. Sunday's program, starting at 2 p.m. will feature a 30-lap championship test starting 33 cars.

Winner of this event will get $600 with $400 going to the runner-up. One nice thing about it all is that the regular performers will have a chance to qualify for the big one Friday night. The 24-car field in Friday's feature will automatically be qualified for Sunday's distance test. They will have to compete in the heat events to determine positions.

Thursday's Stars
By THE ASSOCIATED PRESS

Pitching — John O'Donoghue, Kansas City, pitched a three-hitter as the Athletics halted the New York Yankees' four-game winning streak with a 3-2 victory.

Batting — Willie Mays, San Francisco, broke out of a zero-for-18 batting slump with a two-run double that gave the Giants a 2-1 triump over the New York Mets.

TRIPLE CARD AT LINCOLN ON SATURDAY

Racing fans will get their first opportunity to see the United Racing Club sprint cars in a 25-lap feature when they appear with the sportsman-modified and late model stock cars in a "triple feature" show at the Lincoln Speedway Saturday night.

Heading the URC contingent will be Earl Halaquist, Sidney, N.Y., 1964 champion of the URC. He also is a coholder of the track record (19.2 seconds) at Lincoln record (19.2 seconds) at Lincoln.

Lew Dickson, Marietta, O.; Bobby Courtright, Butler, N.J.; "Red" Riegel, Leesport, Pa; Bill Brown, Denville, N.J.; Sal Moschelle, Pleasantville, N.J., and Lou Johnson, Wilmington, Del., are but a few of the more than 25 top eastern drivers who will be on hand.

The Checkard Flag Fan Club, biggest auto racing booster club in the east, will be guests of the Lincoln Speedway promoter Hilly Rife. The CFFC will present an award jacket to the winner of the sprint car feature, as well as the winner of the sportsman-modified feature.

TOP DRIVERS

The S-M portion of the card will have top drivers Bobby Abel, Bob Myers, Neil Haight, Bud Folkenroth, Ed Zirckle, Willie Musselman, Johnny Roberts, Bob Tester, Ronnie Fonse, Jackie Faulk, Walt Bowman and many more in battle for top points and cash.

The late model competition will be topped with a 20-lap main event. Gene Saine, Ray Fanning, Ken Slaybaugh, Jake Beard, Merle Rudisill, Rex Roth and more than 30 of the young drivers will be in the qualifying heats attempting to start in the feature event. Twenty-four late models are scheduled to start the race.

Due to the length of the program, the first heat gets underway at 8 p.m.

Russians Applaud Van Cliburn Again

MOSCOW (AP) — American pianist Van Cliburn received one of the most exuberant ovations heard in Moscow in years on his return to the concert stage Tuesday night.

He was showered with flowers and applause by a near-hysterical crowd of Russian admirers. Moscow police set up barriers outside the great hall of the Moscow Conservatory to control crowds that blocked traffic.

Cliburn captivated Russians with his music competition victory in Moscow in 1958.

72,000 Hungarians To Hear "Satchmo"

BUDAPEST (AP) — Louis (Satchmo) Armstrong makes his debut in Hungary tonight, and officials except a capacity audience.

Armstrong and his band will play in the 100,000-seat Nep Stadium, used for soccer.

Ticket sales have reached 72,000.

McSherrystown Pee-Wee League

Klunk's Electric tallied four runs in the top of the fourth and went on to wallop the Home Association 7-1 Tuesday evening in a game called at the end of the five innings due to rain.

Triples by Weaver and Sterner, a hit and two walks accounted for the four scores. The winners added three more runs in the fifth. In the meantime, the Home Association entered the scoring when Kev Smith uncorked a long solo homer in the bottom of the fourth for the Home's lone run.

A double by Long was the only other hit the Home managed to get off winning hurler B. Weaver. Gross topped the winners with a perfect three-for-three.

CONTEST COSTS BEAUTY TITLE

ATLANTIC CITY, N.J. (AP) — Jane Nelson, of Tularosa, N.M., the reigning Miss New Mexico in last fall's Miss America pageant, has had her title stripped from her for entering last week's Miss U.S.A. contest.

Leonora S. Slaughter, director of the Miss America pageant, said Tuesday that Miss Nelson, 20, won't be permitted to crown the new 1966 state queen at Hobbs, N.M., on July 17.

Miss Nelson, a student at Arizona State University at Tempe, represented Arizona in the Miss U.S.A. contest. She was first runnerup to Sue Ann Downey, who represented Ohio.

Miss Slaughter said a clause in the contract signed by Miss America contestants stipulates that the girls cannot enter any oher beauty contests during he year of heir reign.

REBELS WILL RELEASE THREE CAPTIVE YANKS

SANTO DOMINGO, Dominican Republic (AP) — The Dominican rebels said they would release three captive American soldiers today to the Organization of American States.

The three Americans, captured when they drove into rebel territory Tuesday by mistake, were Lt. Henry Cephus Leforce, 24, of Nash, Okla.; Spec. 4 Alton P. Blakely, 21, of Richmond, Calif.; and Pfc. Nelson Belengeri, 21, a Peruvian citizen whose uncle lives in Belleville, Ill.

Leforce told newsmen they were on their way to investigate a claim that an American truck had been damaged when they wandered into rebel territory.

LOOKED FOR SIGNS

"I assumed there would be a sign telling us when the international zone ended," Leforce said, "But when we had gone two blocks, a jeep with a 50-caliber machine gun mounted on it pulled out of a side street and stopped us. There was not much we could do."

The rebels customarily release American troops who wander into the rebel sector of downtown Santo Domingo.

Col. Francisco Caamano Deno, the rebel leader, rejected proposals for an interim government which he said had been brought to Santo Domingo by an OAS mediating team that arrived June 4.

PAIN AND BLOOD

"We have gone through 45 days of pain and blood," said Caamano in a broadcast. "Those who think that time can weaken us are wrong."

A member of exiled President Juan Bosch's Dominican Revolutionary party told a news conference there eventually will be a Communist revolution in the Dominican Republic unless the 1963 constitution is restored.

Jose Francisco Pena Gomez said his party had political control of the rebel movement while Caamano had "military and economic" control. The 1963 constitution was scrapped when the military ousted Bosch the same year.

Sergeant Thinks He Is AF Base "Jinx"

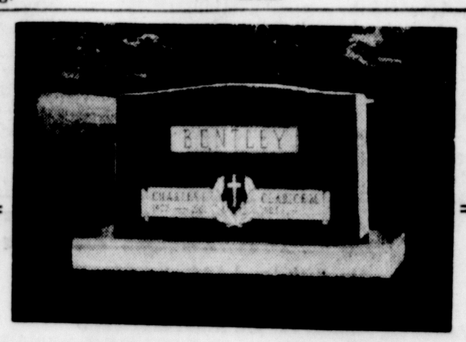

STEAD AIR FORCE BASE, Nev. (AP) — Staff Sgt. Daniel Flynn thinks he's getting to be a jinx.

Flynn, 28, from Pawtucket, R. I., says 10 Air Force units or installations have been phased out or deactivated after he was assigned to them, or connected with them in some way. It started back in 1955.

Flynn was assigned to the Reno Air Defense Sector at Stead in 1963. Both the air defense unit and the training base will be phased out by mid-1966.

The sergeant doesn't know where he'll go next, but the Air Force undoubtedly has its fingers crossed.

YOUTH GIVEN 10 YEARS FOR KILLING TWIN

By ROBERT COOKE

PASADENA, Calif. (AP) — Years of conflict that resulted in death for wealthy Todd Nicholson have ended in a prison term for his twin brother, Timothy.

Timothy Nicholson, 22, was convicted Monday of manslaughter in the fatal shooting of his brother Todd at the climax of a bitter quarrel last Dec. 7.

Timothy faces one to 10 years in prison. He is not eligible for probation, but could be paroled after about 18 months. A jury of seven men and five women reached the verdict after deliberating two days.

Other possible verdicts were first-or second - degree murder and acquittal.

VIOLENT PAGES

The emotion-charged trial — spread over five and one-half weeks — produced testimony of violent rages, protestations of self-defense and charges of falsehood.

Timothy sat dry-eyed, his head bowed ,through the reading of the verdict.

Witnesses for the defense testified Todd possessed an explosive, almost psychotic, temper, often aimed at Timothy. They also said Todd had taken out a $1-million insurance policy on Timothy's life, then presented himself as Timothy for the physical examination. The twins' mother, Roberta Nicholson, confirmed this on the witness stand.

THREATENED DEATH

The twins, heirs to Cudahy meat - packing and Pullman sleeping - car fortunes, had pooled their efforts in profitable real estate investments, mostly through the Sun Development Co. of Phoenix, Ariz.

The prosecution claimed Timothy once threatened to kill Todd, then tried to hire a house painter to "get rid of" Todd. Failing in this, the prosecutor said, Timothy decided to kill Todd himself.

"What caused the defendant to develop this great hatred toward his twin brother, I can't explain, but it was there," said Deputy Dist. Atty. Joseph Carr in his summation to the jury.

MILDER OF TWINS

The defense described Timothy as the milder of the twins, indicating he regularly left home, beginning at age 19, when Todd, in a violent rage, kicked him out.

"When Todd gets mad," Timothy testified, "the only thing to do is to just leave Todd alone."

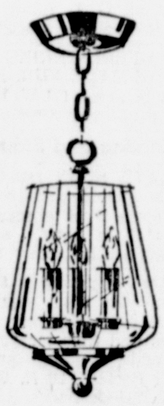

Superior Court Judge H. Burton Noble set July 9 for sentencing.

The jury did not specify in its verdict whether the manslaughter was voluntary or involuntary. In either case the penalty is the same.

Tito Will Visit In East Berlin

PRAGUE, Czechoslovakia (AP)—President Tito of Yugoslavia left for East Berlin Tuesday after a week of talks with President Antonin Novotny which produced a joint plea for Communist harmony but apparently did not bring complete agreement on policies in Viet Nam

Novotny hinted that his regime might join a Moscow-approved plan for "unity of action" on Viet Nam by the entire Communist camp to bring the Chinese into line.

However, Tito remained silent in public on the subject.

PEACE TEAM IS SELECTED

By ROBERT BERRELLEZ

SANTO DOMINGO, Dominican Republic (AP) — The Dominican rebels have appointed a peace negotiating team, a move believed to indicate they are easing their opposition to proposals for a political settlement.

The six-man team is headed by rebel chief Col. Francisco Caamano Deno and includes Hector Aristy, Caamano's presidential minister in the insurgents' constitutionalist government, Foreign Minister Jottin Cury, Atty. Gen. Salvador Blanco and rebel Senate President Anibal Campagna.

The name of the sixth member was not immediately known.

MEET LEADERS

The three-nation mediating team from the Organization of American States continued to meet with local leaders in an effort to break the stalemate.

The OAS group is made up of Ambassadors Ellsworth Bunker of the United States, Ilmar Penna Marinho of Brazil and Ramon de Clairmont Duenas of El Salvador.

In their first contact the mediators were told the rebels would accept no solution that did not call for revival of the 1963 constitution and formation of a new government in accordance with it.

Pimlico's record daily double payoff is $5,932.20. It occurred when longshots scored in the first two races on Dec. 1, 1955.

Search Continues For Cargo Plane

MIAMI, Fla. (AP) — A search for a C119 Air Force cargo plane and its 10 men was extended over 100,000 square miles of sea Monday.

The plane, carrying nine hours of fuel, left Homestead Air Force Base near Miami Saturday night for Grand Turk Island in the Bahamas. Its last reported position was Cricket Island, about 100 miles from Grand Turk.

Foul weather hampered Monday's search by 22 Air Force, Navy and Coast Guard aircraft and two Coast Guard cutters.

Air Force officials said the plane carried ampie survival equipment, including a 20-man life raft.

WASHINGTON (AP) — Australian Prime Minister Sir Robert Gordon Menzies says the issues being fought about in Viet Nam "concern the whole world ...they are not merely local issues."

Menzies lunched Monday with President Johnson. Afterward, he told newsmen, "We are completely as one in resisting Communist aggression in South Viet Nam."

HOLD TALKS

MOSCOW (AP) — Premier Alexei Kosygin talked Tuesday in the Kremlin with a deputy premier of North Viet Nam, Le Tan Ngi. Details of the talks were not available.

The average of managers in the National League this season is 49. Casey Stengel is the oldest at 74. Six other managers are under 50.

SENATE OKAYS $89 MILLION MORE FOR SEA

By GEOFFREY GOULD

WASHINGTON (AP) — The Senate has approved President Johnson's request for an added $89 million in the foreign aid bill to start a new economic development program for Southeast Asia.

Today the Senate considers a significant amendment which would channel much of the military assistance to Latin-American countries through the Organization of American States. The amendment was prepared by Sen. J. W. Fulbright, D-Ark., chairman of the Foreign Relations Committee.

Monday's 42-26 vote added the $89 million to the pending two-year $3.35-billion-a-year foreign aid authorization bill.

The Senate rejected, 45 to 22, an amendment by Sen. Wayne Morse, D-Ore., to cut down the foreign aid measure by $89 million, to provide the extra financing of the new Asian projects in South Viet Nam, Laos and Thailand.

Sen. George D. Aiken, R-Vt., joined Morse, saying the new program should have been offered six months ago, before the U.S. bombings of North Viet Nam. This would have ensured a better reception for it, he said.

MILITARY AID

The OAS amendment, if it gets final approval, would require military assistance to Latin America be given "to the maximum extent possible" under joint plans "approved by the OAS."

This would cover requests from Latin-American countries for arms aid to deal with internal security problems and subversion. Of the $55 million made available in military assistance to Latin America under the bill, the amendment would earmark $25 million for an inter-American military force "under the control of the OAS."

Such a force might be used to step into a situation such as the crisis in the Dominican Republic. The United States drew some criticism for acting unilaterally in sending American troops to Santo Domingo.

Existing law denies military assistance to Latin-American governments for internal security purposes "unless the President determines otherwise."

NEW CAMPAIGN UNDER WAY IN CASTRO'S CUBA

HAVANA, Cuba (AP) — The Cuban government has launched a campaign against homosexualism, Beatle - style haircuts, the twist and "other capitalistic inheritances."

As usual, Uncle Sam is the villain.

Havana newspapers joined the campaign, stating that homosexualism is "a vicious capitalistic inheritance." They said that in "a Socialist society there is no room for it. The homosexuals do not represent the revolution and the virile Cuban people."

Centering its campaign on the armed forces and the universities, the government villified the "homosexuals, the weak boys and those long-haired and strange fellows."

U.S. IS BLAMED

The latest edition of Verde Olivo — Green Olive Tree — the armed forces weekly magazine, printed two full pages of drawings blaming the United States and beatniks for homosexualism in Cuba.

The magazine, which is distributed to young army draftees, shows Uncle Sam dancing and holding hands with a homosexual and a young man with long hair.

Armed Forces Minister Raul Castro, in a recent speech to air force officers, warned Cuban youths "not to receive their inspiration from the twist and rock 'n' roll dancers. They should run away from those weaklings."

Castro did not mention homosexualism, but the Cuban press immediately took up his observations and included in editorial comment the "homosexual problem — that inheritance from capitalism which is still going strong in Cuba."

Jaime Crombet, president of the University Students Fedcration, announced that "very soon a purge of all homosexual students will begin at the University of Havana."

The government claims it has eradicated many vices, including prostitution which was wide open before the revolution. Other sources say prostitution only joined "the underground."

Missing Rockets Found Intact

COLUMBUS, Ind. (AP) — The two-day search for two dangerous rockets dropped accidentally during an Air National Guard training mission ended Monday when the weapons were found intact at Camp Atterbury.

The 30-inch aluminum rockets were discovered by Air National Guard personnel 100 feet from a firing range at the former Army installation.

The accidental release of the rockets Sunday from a jet trainer flying from Toledo, Ohio, to Camp Atterbury launched a hunt centering in east-central Indiana.

Astronauts Agree On Risk Of Eventual Loss Of Craft

By HAROLD R. WILLIAMS
AP Aerospace Writer

HOUSTON, Tex. (AP) — America's latest and longest space flight has come to a happy ending, as have all others before it. Nevertheless, space officials agree, there is always an element of risk in such bold ventures into the void.

How do Air Force Majs. James A. McDivitt and Edward H. White II, who Monday completed their four-day Gemini flight, feel about this aspect of their jobs?

APPROPRIATE SONG

They talked freely about it in an interview shortly before their mission.

"There is an old fighter pilot's song that expresses it pretty well," McDivitt, 35, said. "We had it on a bulletin board in Korea."

White, 34, who did the now famous space walk, took it up from there with occasional prompting from McDivitt. "It went like this:

"Don't worry, you have two chances. Either you'll return to the squadron or you won't. If you return, no sweat. If you don't, you still have two chances. You'll get rescued or you won't. If you do, no sweat. If you don't, you'll get captured or you won't."

TALK FREELY

"Well, anyway," said McDivitt, "it finally says you'll either live or you won't. If you live, no sweat, and if you don't you've still got two chances. I thought it was really appropriate."

McDivitt continued: "Somebody is going to get killed on one. This is my personal opinion. I think that eventually we're going to have one that's not going to work successfully.

"You know the airliners are so safe, but every once in a while, one crashes and the same thing with jet fighters and everything else.

"I think the big problem is not how the flight crews are going to react to it, because we've been through this kind of thing many times before.

PUBLIC OPINION

"The thing that concerns me is how the American public would react to it. You know they have to accept this kind of thing. It might be a minor thing. Maybe the booster just stops running and a couple of guys eject and it's all over, or it could be a lot worse than that, but we've got to accept the fact that evenually this is going to happen.

"Even if we had .9999 reliability, eventually you get to that one point that makes it 1.0."

White said, "If it happens, we wouldn't want it to hold up the space program.

PROGRESS NECESSARY

"We have to keep progressing. Just think what would happen if the first time somebody got hurt in an airplane we'd stopped fooling around with airplanes. We'd be the most backward country in the world right now."

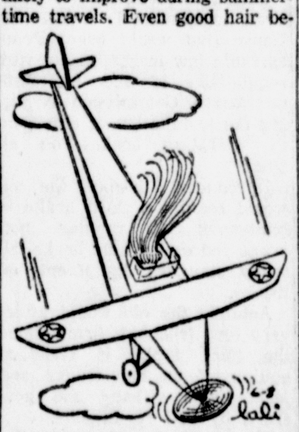

McDivitt said, "As we fly more and more spacecraft we're going to have one come down and we're probably going to lose somebody in it.

"I've always figured, well, it could happen to somebody else, you know. And it always has, so far."

A Lovelier You

By MARY SUE MILLER

When your hair is hard to manage at home, its behavior is not likely to improve during summertime travels. Even good hair becomes rebellious with a change of climate, whether the air is damp or bone dry.

Sunning and swimming plays mischief with your tresses, if you stay at a resort. If you're on a go-go tour, you simply do not have the time to pamper temperamental locks. Bedraggle ment takes over. You neither look nor feel your best. And part of the fun of holidays is looking divine and knowing it!

So why not give some forethought to disciplining your hair? There are dozens of ways. Among the best:

● Hair Tint Formula: If you tint your hair, ask your hairdresser to write down your formula. Take along the makings, when a tour will take you to foreign shores.

● Do-It-Yourself Tints: If you do the coloring, experiment before you travel with a shampoo-in tint or with a one-step type that handles in a most casual style. Then pack the satisfactory product.

● Curl"Glue": This is a harmless adhesive that annexes cheek curls, bangs and nape ends to the skin.

● Hair Sprays and Sets: Spray-on setting lotions with built-in, instant conditioners are recommended to swimmers. Holding sprays are indispensable for quick touch-ups to a fading set.

Perk-ups: From bows to wiglets to scarf-hats, accessories can save the travelling coif when all else fails.

RULE YOUR WAVES

What's your hair problem? You'll find a way to overcome it in my 16-page booklet, RULE YOUR WAVES. Advice includes: Beauty treatments for oily, dry and normal hair; ways to manage unruly locks; how to add color and highlights; tips on cutting, permanents and styling; grooming tricks. Write Mary Sue Miller, Box 158, The Gettysburg Times, Dundee, Ill., enclosing a large, self-addressed, stamped envelope and 20c in coin.

NEW YORK COP GETS COLLEGE DEGREE SUNDAY

By GEORGE ESPER

NEW YORK (AP) — There were days in the Crowley household when some of the 14 children would come home from school troubled by an assignment.

The mother, Helene Crowley, would hear these words: "Ma, I can't do it."

"I don't know why you can't," she'd say. "Your father can do it."

Helene Crowley can hold up husband Steve as an example and an inspiration even though he is a high school dropout.

GRADUATES SUNDAY

Steve Crowley — at age 42 — will receive his Bachelor of Arts degree in social science from St. John's University Sunday.

Crowley, holder of the Purple Heart and veteran of six World War II battles, has been a New York City policeman for 14 years. He won a department scholarship to college and became eligible for admission by passing a high school equivalency test.

At St. John's, he completed the six-year evening class program in five years.

WORKED FULL TIME

During those years, he worked a full schedule, sometimes 15 hours on a weekend to compensate for five hours off during the week.

"After the first year or so, I became accustomed to the routine," said Crowley, who has won seven commendations for police work.

Crowley gives a lot of credit to his wife, whom he met at a parish dance. She encouraged him to go to school, and wants him to continue his education.

"It was something he always wanted to do," said Mrs. Crowley. "I felt it was good for the children and himself."

INSPIRED KIDS

The Crowleys have seven boys and seven girls, ranging in age from 7 months to 16 years. The oldest, Michael, is studying for the priesthood.

"The children's marks have greatly improved since he went to school," said Mrs. Crowley.

"Frankly, it inspired them (the children) a little bit," said Crowley. "They could see that it was an effort. We pooled our resources at homework time. They'd help me with math; I'm pretty rusty. I helped them with English and composition and things."

Crowley plans to go to law school of graduate school.

"I hope to advance in the police department primarily," he said.

Cigars In Havana Reported Scarce

MIAMI, Fla. (AP) — Havana cigars, no longer within ready reach of Americans, are reported getting scarcer in Havana, too.

A Cuban radio broadcas monitored in Miami set a production goal of 40,241,500 cigars for domestic consumption and 17,575,500 for export by July 26, 1965, anniversary of Prime Minister Fidel Castro's revolution.

A new Cuban economic research report said 548 million cigars were smoked in Cuba in all of 1958, the year before Castro's take-over. Cigars exported in 1958 totaled 79,878,449.

SOLONS WANT TRUCK BRAKES

HARRISBURG (AP)—Bi partisan legislation is before the House that would bring Pennsylvania law in conformity with regulations of the Interstate Commerce Commission requiring the installation of emergency operating brakes on all trucks.

Introduced Tuesday, the bill would require a third brake to implement the regular foot-brake and the parking brake, already standard equipment on trucks.

Actually the bill would affect very few trucking firms since the third brake is standard equipment on new trucks and most firms already are governed by ICC regulations.

Other bills introduced in the House would:

—Fix the minimum starting salary for firemen in the state's 48 third class cities at $4,500 a year with minimum annual increments of $300 for the first five years of employment.

—Require training courses for election officials at a cost to the state.

Harness racing handled more wagering money in Canada last year than thoroughbred racing, reports the Canadian Agricultural Department.

BOTH PARTIES READY TO SEEK MONEY ISSUES

HARRISBURG (AP)—With final revenue figures for the current fiscal year becoming more apparent, the accent in the legislature is on money matters.

A flock of money bills flowed to the floor of each chamber Tuesday although the final revenue figures still are not in and Democrats and Republicans are quarreling over the amount.

The Senate Appropriations Committee released some $70.2 million worth of non-preferred appropriations bills for consideration of the full Senate, plus some $2 million more in regular appropriations.

The House Appropriations Committee, meanwhile, released the same package of non-preferred appropriations, minus a $27,664,774 grant for Pennsylvania State University and $6,464,645 for Temple University.

Nonpreferred appropriations is a term used to describe money over which the state has no control once the funds are approved by the legislature and governor. Such appropriations require two-thirds approval in each chamber.

The Senate committee did not include an additional $3.5 million to the Penn States or Temple appropriations as Gov. Scranton recommended in a surplus message to the legislature last week.

The money, to be used specifically for reducing tuition for Pennsylvania students probably will be added once the final revenue totals are compiled. This apparently was the reason for House delay on the grants.

The two committees did, however, increase the operating subsidies for the Universities of Pittsburgh and Pennsylvania.

Pitt was raised by $332,957 to $4,428,442, while Penn received a $500,000 increase to $4,960,217.

Their medical schools also benefited. Pitt's medical school received $1,291,520, $103,440 more than recommended, while Penn was given a $140,250 boost $1,733,250.

DAIRY FARMERS PROTEST PRICE

PHILADELPHIA (AP)—Dairy farmers from southeastern Pennsylvania, Delaware, southern New Jersey and Maryland crowded into a hearing room Tuesday to protest the proposed end of federal milk price regulations.

The Agriculture Department announced last May 19 it would terminate its milk marketing order in this area because some milk cooperatives and dealers are undercutting minimum prices.

F. Bennet Carter, of Centerville, Md., president of the Inter-State Milk Producers Cooperative, testified at the Agriculture Department hearing that instead of terminating the order, he government should enforce it with more vigor.

Carter said more than 2,500 dairymen from the four affected states have signed petitions urging retention of the order.

Pedestrian Killed By Truck Mirror

HARRISBURG (AP) — A pedestrian was injured fatally in an odd accident early today on Rt. 22 about 2½ miles north of the Harrisburg city line.

State Police identified the victim as Leon Turns, 46, of Linglestown R.D. 1. Officers said he was struck in the head by the rear view mirror of a passing tractor-trailer truck driven by Russell S. Metzger, 51, Sunbury.

Turns died of his injures at Polyclinic Hospital, Harrisburg, about two hours after the accident.

MURDERER GETS THIRD SENTENCE

MCALESTER, Okla. (AP) — A jury recommended Tuesday the death penalty for an admitted murderer who twice has escaped the electric chair despite his plea for electrocution.

James D. French, 28, was found guilty in District Court in the Oct. 21, 1961, strangulation of an Oklahoma penitentiary cellmate, Eddie L. Shelton. Judge Robert Bell set formal sentencing for June 18.

The State Court of Criminal Appeals twice reversed lower-court verdicts which found French guilty and sentenced to death.

French testified he had "bought his ticket and wanted to see the show" and explained he meant he had killed Shelton and should pay the penalty. French was serving a life term for murder at the time Shelton was killed.

LUCI JOHNSON HAS GOOD TIME IN A DISGUISE

WASHINGTON (AP) — Luci Baines Johnson told almost all Tuesday: She had worn a disguise, she had danced at the Marquette University prom, she had picnicked with friends.

Throughout the weekend fling —primarily in the Milwaukee, Wis., area — her whereabouts were a secret from the public.

"I'm human, too," the President's 17-year-old daughter said Tuesday. "I wanted for once to be out with my friends and have fun."

She flew to Chicago with her father Thursday, then with parental approval she disappeared from the public eye. Secret Service agents remained with her, but took extra precautions to stay in the background.

LOTS OF TROUBLE

"I went to a lot of trouble," she said. "I did it because I wanted just for one time to be out with my friends and having a good time. It's difficult enough. I always have to have adults around and chaperons."

Then she added: "If you have to have them, I couldn't ask for better ones."

This time, however, she wanted to enjoy life without the press and curious sightseers.

She succeeded. She attended Marquette graduation exercises, the prom, Sunday Mass and picnicked in the Wisconsin countryside without attracting undue attention.

WORE A WIG

There were reports she had attended the prom, a silver-blonde wig hiding her dark hair.

The Milwaukee Sentinel said the mystery girl at the dance wore such a wig, and quoted Father Leonard Piotrowski as saying she was introduced under the "nom de prom" of Miss Amy Nunn from "just outside Austin, Texas."

The Sentinel said Luci confirmed her date had been Patrick J. Nugent, a Marquette senior from Waukegan, Ill. He couldn't be reached for comment.

Luci, however, declined to say what sort of a disguise she had worn or how she avoided attracting attention.

She said she might want to try another masquerade sometime.

Groom Titan 3C For Firing Soon

CAPE KENNEDY, Fla. (AP) — The Titan 3C, America's most powerful rocket, is being groomed for a scheduled firing June 17.

Technicians ran through a dress rehearsal Tuesday.

The Titan 3C, which generates nearly three million pounds of thrust, is capable of placing 25,000 pounds into orbit. Studies are being made by the Air Force to determine if the payload can be increased to between 30,000 and 40,000 pounds.

GOP CLAIMS MISSISSIPPI POLL VICTORY

By JAMES SAGGUS

JACKSON, Miss. (AP) — Jubilant Republican leaders looked confidently to the future today after GOP victories in mayor's races at Columbus and Hattiesburg — the first major municipal triumphs in Mississippi party history.

Former Democrats Paul E. Grady of Hattiesburg and R. D. Harmond of Columbus were the causes of the big Republican cheers.

Grady unseated Democratic Mayor Claude Pittman Jr., 2,438 votes to 1,836, while Harmond whipped Democratic Mayor William Propst 1,394 to 1,191 in Tuesday's municipal elections.

WIN COUNCIL SEAT

The GOP also won two alderman posts at Drew, two at D'Lo and one at Magee, and one council seat at Columbus. A Republican also captured a non-partisan aldermanic race at Hollandale.

Republican State Chairman Wirt Yerger Jr. called the triumphs "a history-making breakthrough — particularly significant because they were at the grassroots level, the greatest source of any party's strength."

Only four years ago, he said, there was not a single Republican municipal candidate in Mississippi and "I am awed by the progress we have made. The victories will have a tremendous impact on the progress of our state. They have paved the way for many future victories."

OPPOSE TRENDS

The Republican surge in this Deep South state first came with widespread dissatisfaction over trends in the national Democratic party, particularly under President John F. Kennedy.

L. L. McAllister, a personally popular young Meridian businessman, won a special election for state representative in February, 1963, to give the GOP morale a boost and its first legislative post.

Last fall, Barry Goldwater won the state for the Republicans for the first time since Gen. U.S. Grant and Reconstruction.

The Goldwater surge, which got him almost 90 per cent of the vote, also carried Republican Prentiss Walker to victory over veteran Democratic Congressman Arthur Winstead.

The GOP fielded 46 candidates Tuesday in 18 municipalities, including seven for mayor and the rest for councilman-alderman- commissioner posts.

70 YOUTHS IN SPELLING BEE

WASHINGTON (AP) — Seventy youngsters ranging from 11 to 15 match wits with Webster's dictionary today in the opening of the 38th National Spelling Bee.

A practice round with Akimichi Chinen, an eighth-grader from Hawaii, as the first speller, kicks off the two days of competition for $5,700 in prizes.

With the exception of the practice round — which doesn't count in the official scoring — a contestant is eliminated if he or she misspells a word. The words get tougher with each round.

The 35 boys and 35 girls — girls usually far outnumber the boys in national competition — are the top spellers of more than 6 million youngsters who competed in local bees.

They represent 32 states, the District of Columbia and Guam.

The champion to be crowned Thursday will succeed William Kerek, now 13, of Cuyahoga Falls, Ohio.

The contest is sponsored by Scripps-Howard newspapers in 16 cities and 53 other daily and Sunday papers. Two contestants represent the New York World-Telegram & Sun.

First prize is $1,000 in cash, a weekend trip to New York City including a visit to the World's Fair, an appearance on the Ed Sullivan television show and $100 spending money for the champion and his or her escort.

Rains Aid Crops In Pennsylvania

HARRISBURG (AP) — The Pennsylvania Crop Reporting Service says generous rainfall in most parts of the state helped to sustain normal plant growth last week although some eastern and northeastern counties remained dry.

Grain crops showed progress, but cool weather slowed the growth of corn in some areas, the service said in its weekly report issued Tuesday. Some frost was reported in central and northern mountain sections.

Haymaking continued between showers and pastures generally were in good grazing condition, the service said. Fruit crop prospects appear good, but more moisture is needed to assure normal sizing.

ATTEMPTS RAFT JOURNEY NEXT

SEATTLE, Wash. (AP) — Sen. Robert F. Kennedy, D-N.Y., and Jim Whittaker, who conquered a Canadian mountain together earlier this year, will make a raft trip down the Salmon River in Idaho, Mrs. Whittaker said Tuesday.

She said Kennedy, his wife and their four oldest children will meet the Whittakers and their two sons in Boise, Idaho, June 26.

The two families will proceed to the headwaters of the Salmon and begin a five-day raft journey.

The senator and Whittaker, first American to conquer Mt. Everest, made the first ascent of Mt. Kennedy this spring. The peak was named by the Canadian government for the senator's brother, assassinated President John F. Kennedy.

Miss Holliday Funeral Today

NEW YORK (AP) — Some 350 fans and friends paid their last respects to actress Judy Holliday Tuesday night.

Miss Holliday, 41, who rose to fame on Broadway as the dumb blonde in "Born Yesterday," died Monday after a five-year battle with cancer.

Miss Holliday's body was in a closed coffin at an East Side funeral home.

A funeral service was scheduled for today.

Burial will be private in Westchester Hills Cemetery.

Governor Signs Poverty Bills

HARRISBURG (A) — Pennsylvania may now officially participate in the federal Appalachia and anti-poverty programs.

Gov. Scranton Tuesday signed into law a bill providing for the required technical authorization.

OFFICERS OF

(Continued From Page 1)

flag. The group sang "America" and the doxology as the invocation. Group singing was in charge of Mrs. Sizer Burton with Mrs. George F. Eberhart as the accompanist.

Greetings were extended by the outgoing president, Mrs. Baker. Each club president and members of her club were introduced. Stewart Long, Littlestown, sang "One Alone," "Without a Song" and "The Desert Song." Miss Anna Weaver, Littlestown, was his accompanist.

DR. TURNER SPEAKS

The installing officer was Dr. Verna Turner, Johnstown, director of the Western District, North Atlantic Region. Dr. Turner was chosen by the Cambria County Medical Society as "General Practionier of 1963." She has been a Soroptimist since 1952, holding various offices in her club, the district and region.

In a brief talk she told of her ideals of life and liberty. She said, "We should have an educated citizenry; education should be free and tax supported. There is a growing need for bigger and bolder discussions. We should respect and have good will for each other, know our rights and understand them; defend our rights; take a part in the government by voting, and we should take the torch of freedom in our hands and hold it high."

INSTALL OFFICERS

Dr. Turner, assisted by Mrs. Anne Rodgers, of York, and secretary of the Western District, installed officers and new members of each club, using as a motif, white carnation corsages with colored ribbons pertaining to each office.

The presidents installed: Mrs. Blanche Hertsberg, Carlisle; Mrs. Lulu Carl, Chambersburg; Mrs. Mary Oaster, Hanover; Mrs. Annah A. Mosebrook, York.

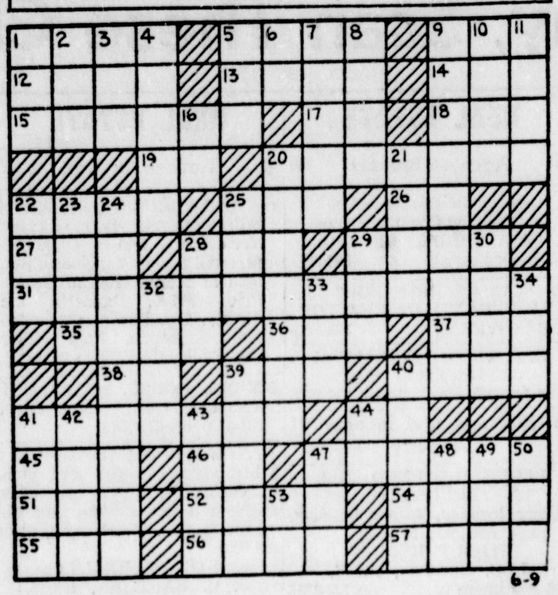

The following officers and new members of the Gettysburg club were installed: President, Mrs. Henry T. Bream; first vice-president, Miss Jane M. Stallsmith; second vice-president, Mrs. Edith E. Bushman; recording secretary, Mrs. Donald Myers; corresponding secretary, Mrs. George A. Fair; treasurer, Mrs. M. E. Zinn; directors, Mrs. Burton and Mrs. Baker. New members introduced were Mrs. Robert Ziegler, coowner Ziegler Studio; Mrs. W. E. Jordan, supervisor of the Adams County Home; Mrs. Michael Tate, supervisor of the operating room at Warner Hospital; Miss Marie Budde, associate professor of music, Gettysburg College, and Mrs. Thelma Yingling, owner, farm machinery and equipment.

RECEIVES GIFT

Mrs. Baker presented Dr. Turner with a silver tray as a gift from the local club. She also announced invitations had been received from the Harrisburg Soroptimist Club, for a dinner June 22 at the Penn Harris Hotel, and the Westminster Club for a dinner June 21 in the Methodist Church fellowship hall. A telegram was read from the only life member, Mrs. Anna Bierer, formerly of the Gettysburg Club, congratulating the old and new officers. A solo, "The Soroptimist Aloha," was sung by Mrs. Burton, in honor of the outgoing president.

The following committee was in charge of arrangements for the banquet: Mrs. Baker, Mrs. Bream, Mrs. Samuel Higinbotham, Mrs. Donald Carver, Miss Weaver, Mrs. Burton, Miss Jane Stallsmith, Mrs. Eberhart, Mrs. Myers, Mrs. Frederic Griest, Mrs. Estella Williams and Mrs. V. E. Hill.

der were reappointed auditors. The board re-elected Dr. Leonard L. Potter medical examiner, Dr. Richard Greenholt dental examiner and Guy Conover truant officer.

In a discussion regarding the school reorganization plan scheduled for July 1, 1966, Fred Hartlaub, a member of the Littlestown board serving on the county board of directors, said he believes that each jointure will be represented on the interim board to nominate directors to implement the single-unit program. He explained that "all directors will complete their current terms" in an advisory capacity to the new county-wide board.

STUDENT AWARDS

The board debated the advisability of continuing individual student awards to Seniors and Mackley instructed the property and supplies committee to have the public address system in the school auditorium repaired.

In the final administration report of the year 28 First grade pupils failed to complete their first year satisfactorily. Twelve pupils of the remaining five elementary grades failed to pass and 14 junior-senior pupils fell short of academic standards. Failing pupils in 10th, 11th and 12th grades were not listed, since they are given the opportunity of making up grades through accredited summer school work to acquire 15 units in proper sequence to graduate according to the report.

PLAN INSTITUTE

Paul E. King reported that the County Custodian Institute will be held at the Maple Ave. School this Friday. He informed the board that among the school activities of the final month of school were trips by the Senior class to the World's Fair and a visit to New York City by the National Honor Society.

Robert Sneeringer was elected president of the student body and awards were presented to 261 students in the final awards assembly. He reported that all students have been registered and all teachers have received assignments for the fall term. John H. Riley, elementary principal, reported that 108 First graders have been registered for the September term.

Mrs. Brenda B. Walker, school nurse, reported that the Future Nurses Club received a citation from the World Clothing Fund for a recent contribution of clothing to Southern Appalachia. She administered first aid to 89 pupils during the final month of school, made 13 home calls and made seven referrals to the Department of Public Assistance for school medical and dental care.

ROSE GROWERS TAKE TROPHIES

Two Biglerville men won many trophies and awards at the Harrisburg Rose Show Saturday.

Earl Carey and Charles Baker, Biglerville rose growers, won four out of eight perpetual challenge class trophies at the Harrisburg show in the Farm Show building.

This is the second time Carey has won silver trophies at the show. This year he won the William H. Mavity challenge class for four white hybrid tea roses displayed in separate containers and the American Rose Society bronze certificate for the third highest number of points in Division I.

FIRST TROPHIES

Baker won silver trophies this year for the first time after entering the show for several years. He won the J. Horace McFarland challenge class for three blooms of any red hybrid roses displayed in separate containers, the Harrisburg Rose Society challenge class with three different varieties of pink hybrid tea roses in separate containers and the Schell Seed Store challenge class for five different varieties of floribunda roses in separate containers.

Both men won numerous blue ribbons in the show which had over 900 entries. It was sponsored by the Harrisburg Rose Society of which Baker and Carey are members.

COUNTY ASKED

tority's selling bonds or borrowing from local banks. In lieu of taxes on the housing, a 10 percent of rentals is given local taxing authorities. The rentals are designed to be high enough to repay the borrowed money, but low enough to assist persons with limited income. Average monthly rental in such housing was listed as $45.73 a month. The public housing would aid not only the elderly but those with low income generally. According to the literature families needing a large number of rooms would pay the same as smaller families requiring smaller quarters.

PRESENT DETAILS

Mrs. Verna Myers, director of public assistance for the county, met with the commissioners Tuesday at their request to outline details on distribution of surplus food and the food stamp plan for aiding those in need. State officials have suggested to the commissioners that the county join others in the state in distribution of surplus foods. The county commissioners have favored instead installation of a food stamp plan to help the poor. Mrs. Myers said her check of regulations pertaining to use of the food stamp plan so far indicated the county will have little opportunity to operate under that plan, which first requires the county to be listed as a poverty area, "which would be difficult." The county, she told the commissioners, has only 1,092 on the relief rolls, of whom more than 600 are children. Of all on the relief rolls only about 10 are employable, the commissioners said Mrs. Myers told them. The others are children, blind, disabled and aged. Some families receiving public assistance, she said, "have fathers who do everything they can, but cannot earn enough from their labors to care for the large families they have."

Bills authorized for payment by the commissioners totalled $5,803.49.

lic. Here's what's planned so far:

HOUSTON PARADE

Thursday — Arrive in Houston at 10:30 a.m. (EST) for a parade, visit with their families, news conference, further debriefing.

Friday or Saturday—A likely visit to President Johnson's ranch in Texas.

Monday—Ticker-tape parade in Chicago.

Tuesday — Honors by the University of Michigan at Ann Arbor. Both men are graduates of the university.

Wednesday — A homecoming celebration at Jackson, Mich., McDivitt's home town.

NO HOMECOMING

No homecoming plans were announced yet for White. He is a native of San Antonio, Tex., but has lived in about 50 cities, the son of an Air Force general. His parents now live in St. Petersburg, Fla., and a space center spokesman said the celebration probably would be there.

Space officials had to decline a number of invitations — including a traditional ticker tape parade in New York, Newark, N.J., and Miami, Fla., also extended parade invitations which were in turn "declined regretfully," said Julian Scheer, NASA associate public affairs administrator.

"It was a matter of scheduling," Scheer said.

EXCITING MOMENTS

Aboard the Wasp Tuesday, Paul Haney, NASA information officer, interviewed the astronauts as to their most exciting moments during the flight.

White said his plainly was the 20-minute venture outside Gemini 4 — during which he said he did a little dance on the capsule, Haney reported.

He said White told him be carefully avoided snagging his space suit on the sharp edges of the blunt end adapter section of the capsule, though he did peek into it.

GLOVE FLOATED AWAY

"There I go again," White exclaimed as he intently watched the film while in the captain's cabin for dinner Tuesday night, lifting himself out of his chair.

"There she goes," he said when his glove floated out of the hatch.

He readily agreed when McDivitt said the pictures turned out well.

McDivitt also said he was happy to see that the small American flag on White's shoulder patch was clearly visible.

McDivitt said the spectacular return to earth was the most memorable part of the flight for him.

"Watching the land go by, watching it come up closer, and watching the retro-adapter package fall away and burn up . . . the prettiest part of it all is re-entry," Haney quoted McDivitt as saying.

White said his second greatest thrill came at the moment of liftoff. "He knew at that point they were on their way," Haney said.
